PROPOSALS DUE:

Request for Proposal

Vista Irrigation District (“District”) will be accepting proposals from qualified contractors for AC paving services to support maintenance activities and capital improvement projects during the 2022 fiscal year with the option to extend the contract for an additional two, one-year terms.

BACKGROUND:

Vista Irrigation District was organized in September 1923. Its mission is to provide a safe and reliable supply of water to its customers. The District currently serves 28,800 accounts with a population of 137,000 people.

A five-member Board of Directors (“Board”) governs the District. The General Manager and administrative staff implement the policies approved by the Board of Directors and handle the District’s day-to-day operations.

The service area lies within the northwestern quadrant of San Diego County, encompassing approximately 21,200 acres in its service area. Historically, the District has received 30% of its water supply from Lake Henshaw, which, along with the surrounding 43,000-acre Warner Ranch is owned and operated by the District. The remaining 70% of the District’s supply comes from purchased water sources, including the Colorado River, desalinated seawater and the Sacramento River/San Joaquin River Delta in Northern California. These sources are conveyed to the District via aqueducts owned and operated by water wholesalers, the Metropolitan Water District of Southern California and the San Diego County Water Authority.

OBJECTIVES:

The District needs a qualified and experienced company to provide asphalt repair services for all phases of patch paving work and the District’s water main replacement program. The District expects to generate approximately 15,000 – 20,000 square feet of patch paving in the upcoming fiscal year, which varies from as small as 1 square foot to as large as 2,000 square feet. The District also replaces 8,000 to 12,000 linear feet of water main annually, which can require trench line base paving, grind and cap, overlays as well as remove and replace.

The Vista Irrigation District boundary includes the City of Vista as well as parts of the County of San Diego and the cities of San Marcos, Escondido and Oceanside. It is expected that all paving will be performed to the standards of the governing agency. These standards typically require additional cold planing within patches by as much as, but not limited to, 6-inches around the perimeter.

Scope of Work: Various locations throughout the District, including areas in the cities of Escondido, Oceanside, San Marcos, and Vista, as well as the unincorporated areas governed by the County of San Diego.

8. Provide all traffic control as needed.

Contractor shall proceed only after receiving authorization from a District representative. Unanticipated work outside the submitted fee schedule required to complete the project to the satisfaction of the District and/or the governing agency shall be approved in advance and paid on a time and materials basis.

- If required, Contractor shall submit to governing agency engineered traffic control plan and use approved plans in the scope of work.
- If required, Contractor shall submit a right-of-way permit with governing agency.
- If required by governing agency, Contractor shall coordinate and submit signed/stamped compaction report(s).

- All work will need to be completed within three (3) weeks after a notice to proceed has been given to the Contractor.
- Contractor shall invoice the District after the project has been completed to the satisfaction of the governing agency and the District.
- The District will conduct open bidding when asphalt repairs are projected to exceed \$60,000 and reserves the right to openly bid any project.

ATTACHMENT 6
FAITHFUL PERFORMANCE BOND

WHEREAS, the VISTA IRRIGATION DISTRICT, by Resolution No. _____, passed _____, 20 __, has awarded to _____, (hereinafter designated as the "Principal"), a contract for _____; and

WHEREAS, said Principal is required under the terms of said contract to furnish a bond for the faithful performance of said contract.

NOW, THEREFORE, we, _____, as Principal, and _____, as Surety, are held and firmly bound unto the VISTA IRRIGATION DISTRICT (hereinafter called the "District"), in the sum of _____ Dollars (\$_____), lawful money of the United States of America, for payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators and successors, jointly and severally, firmly by these presents.

THE CONDITION OF THIS OBLIGATION IS SUCH THAT, if the hereby bonded Principal, its heirs, executors, administrators, successors, or assigns, shall in all things stand to and abide by and well and truly keep and perform all the undertakings, terms, covenants, conditions, and agreements in the said contract and any alteration thereof, made as therein provided, including, but not limited to, the provisions regarding contract duration and liquidated damages, all within the time and in the manner therein designated in all respects according to their true intent and meaning, then this obligation shall become null and void; otherwise it shall be and remain in full force and effect.

As a condition precedent to the satisfactory completion of the Contract, the above obligation shall hold good for a period of one (1) year after the acceptance of the Work by District, during which time if Principal shall fail to make full, complete, and satisfactory repair and replacements and totally protect the District from loss or damage made evident during the period of one (1) year from the date of acceptance of the Work, and resulting from or caused by defective materials or faulty workmanship, the above obligations in penal sum thereof shall remain in full force and effect. However, nothing in this paragraph to the contrary notwithstanding, the obligation of Surety hereunder shall continue so long as any obligation of Principal remains.

Whenever Principal shall be, and is declared by the District to be, in default under the Contract, the District having performed the District's obligations thereunder, the Surety shall promptly either remedy the default, or shall promptly:

1. Complete the Contract in accordance with its terms and conditions; or
2. Obtain a bid or bids for completing the Contract in accordance with its terms and conditions, and upon determination by Surety of the lowest responsible Bidder, arrange for a contract between such Bidder and the District, and make available as Work progresses (even though there should be a default or succession of defaults under the contract or contracts of completion arranged under this Paragraph) sufficient funds to pay the cost of completion less the balance of the contract price, but not exceeding, including other costs and damages for which Surety may be liable hereunder, the amount set forth in the first executory Paragraph hereof. The term "balance of the contract price" as used in this Paragraph shall mean the total amount payable to Principal by the District under the Contract and any modifications thereto, less the amount properly paid by the District to the Principal.

Surety expressly agrees that the District may reject any contractor or subcontractor (in accordance with the Contract Documents for this Contract) that may be proposed by Surety in fulfillment of its obligations in the event of default by the Principal.

Surety shall not utilize Principal in completing the Contract nor shall Surety accept a Bid from Principal for completion of the Work if the District, when declaring the Principal in default, notifies Surety of the District's objection to Principal's further participation in the completion of the Work.

No right of action shall accrue on this bond to or for the use of any person or corporation other than the District named herein or the successors or assigns of the District.

Surety and Contractor shall provide District notice thirty (30) calendar days prior to any modification, renewal, or termination of this bond.
