WORLD WATER DAY CELEBRATION!

Saturday, March 21, 2020
9AM—1PM
Grape Day Park - 321 N. Broadway, Escondido

Join the City of Escondido's Environmental Programs division and other North County Water Agencies for a fun filled family event to celebrate World Water Day 2020. World Water Day is about learning how water and climate change are so closely related.

Events will include:

Splash Science Lab (10AM - 1PM): Kids, come visit this interactive mobile science lab and learn how water pollution affects the environment and wildlife, and why it is important to conserve water. Children attending the Splash Science Lab must be supervised.

Local non-profit booths (9AM - 1PM): Come learn from and engage with local water agencies and local nature conservancies. There will be raffles, games, and prizes for the kids.

FREE three-hour workshop on Landscape Design:
Shape Your Outdoor Space (9AM - 12PM): An expert in local landscaping will teach you how to:

- Convert your turf area to a water efficient landscape
- Select plants that will thrive in our Mediterranean climate
- Analyze your yard, identify soil, remove turf & irrigate efficiently
- Create a professional landscape, planting & irrigation designs

***Registration is required* for workshop,**
