

Instructions for Proposed Water Bill Calculator

The Proposed Water Bill Calculator (Bill Calculator) can be used to estimate your water bill under the proposed rates being considered at the January 19, 2022 Public Hearing being held at Vista Irrigation District.

In order to use the Bill Calculator, customers must first download the “Proposed Water Bill Calculator” Excel file. Once the file has been downloaded, please follow the below steps to calculate how the proposed rates will impact your future bills.

Please contact Customer Service for assistance with the Bill Calculator or if you do not wish to download the file. Customer service is available at (760) 597-3120 during regular business hours, Monday through Friday from 8:00 a.m. to 5:00 p.m.

Please have your most recent water bill handy as you will need information from your bill to enter into the Bill Calculator.

Once the file has been downloaded, input your information into the grey shaded box circled in red below.

1. Select whether you are billed monthly or every other month (Bi-Monthly) from the drop down box. Most customers are billed Bi-Monthly.
2. Select your meter size from the drop down box. Your meter size can be found near the upper left side of your bill. Most customers have a 3/4" meter size.
3. Enter the number of units you use or expect to use. You can use a prior bill to estimate the number of units you typically use. (1 Unit = 748 gallons)

Once you have entered your information, the Bill Calculator will provide the estimated Water Usage Charge, Service Charge and Emergency Water Storage Fee and identify the estimated total amount due based upon the proposed rates.

Vista Irrigation District PROPOSED WATER BILL CALCULATOR

Are You Billed Monthly Or Bi-Monthly (use drop down menu) :

Bi-Monthly

What Size Meter (top left of your bill) Do You Have (use drop down menu) :

3/4"

How Many Units (top right of your bill) Of Water Do You Use (1 Unit = 748 Gallons):

24
