**COVID-19 MEETING PROCEDURES**  
**NOTICE FOR PARTICIPATION**

On September 16, 2021, Governor Newsom signed Assembly Bill 361 (2021-2022) (“AB 361”), which incorporated some aspects of the teleconferencing rules applied by Executive Order 08-21 to local agencies during the COVID-19 pandemic into California law. AB 361 allows local agencies to conduct virtual meetings without any public participation component during a state of emergency. As of the date of this notice, there exists a state of emergency in California caused by COVID-19; however, unless a subsequent agenda or public notice provides otherwise, the Vista Irrigation District intends to conduct its meetings in a hybrid fashion, allowing for individuals to participate in public meetings in-person, observing California Department of Public Health (“CDPH”) COVID-19 related guidance, or if they prefer, via teleconferencing.

Members of the public may also participate through Vista Irrigation District's teleconferencing line; the telephone number and applicable pass code for such participation is as follows: Phone (877) 873-8018; Pass Code 474698#. Vista Irrigation District's teleconferencing line capacity is limited and not all parties who wish to participate through this method may be able to do so. Telephone participants are asked to place calls to this line at or before the scheduled start time of the meeting, so the District staff can organize order of speakers and assure the ability of all who wish to participate. Please also note telephone or data charges from your carrier may apply to your use of this option.

To maintain orderliness in proceedings, telephone participants will be asked to identify themselves, their address, and the item on the agenda they wish to address. Telephone participants are asked to limit background noise during telephonic participation (with muting features, if available) and to maintain proper decorum suitable to the conduct of public meetings at all times. Telephone participants may not speak until the appropriate time on the agenda and only when recognized by the Board President.

Members of the public may address the Vista Irrigation District Board of Directors directly and in real time during the public comment period regardless of whether they are participating in person or over the telephone.

Members of the public may also address the Board of Directors by email; however, such email communication must be received at or before the time of the commencement of the meeting. The email address to use for such communications is as follows: [BoardSecretary@vidwater.org](mailto:BoardSecretary@vidwater.org).

Please be advised that one or more members of the Vista Irrigation District Board of Directors or staff may participate in this meeting by teleconference consistent with AB 361.

In compliance with the Americans with Disabilities Act, if special assistance is needed to participate in the Board meeting telephonically, please contact the Board Secretary during regular business hours at (760) 597-3128. Notification received 48 hours before the meeting will assist Vista Irrigation District in making reasonable accommodations.

## ***March***

- Harmful Algal Blooms
  - Performed sampling for Harmful Algal Blooms (HABs) in Lake Henshaw on February 22 and 28, and March 7, 14, 16, 18 and 22. Results for anatoxin-a and microcystin have been below the “Caution” advisory threshold. Henshaw releases resumed between February 24 and March 11, 2022 and again between March 23 and March 28, 2022.
  - Treated HABs in Lake Henshaw with a peroxide based algaecide on March 14 and 15, 2022 using the City of Escondido’s algaecide applicator.
- San Pasqual Undergrounding Project (SPUP)
  - Following a delay to assess preliminary archeological findings, excavation of the tunnel portals for the crossing of the riparian area has recommenced.
  - At the recommendation of the contractor, the City of Escondido (Escondido) has approved an alternate retaining wall design (soil nails vs. poured-in-place construction) near the desilting basin that will simplify construction logistics.
  - After reassessing construction sequencing, the contractor has recommended, and Escondido has accepted, taking the Escondido Canal (Canal) out of service beginning March 30, 2022 to facilitate construction activities near the desilting basin; it is anticipated that the Canal will be out of service until November 2022. While the construction of the SPUP will interrupt deliveries of local water to Lake Wohlford and the District due the Canal being out of service, the work will not interrupt delivery of local water to the Rincon Band.
  - Additional SPUP activities in April include potholing of utilities in Lake Wohlford Road and relocating utilities of known conflict.
- Began reconfiguring fencing in three pastures to protect water quality.

## ***April***

- Continue reconfiguring fencing in three pastures to protect water quality.

## Water Table Depth vs. Monthly Wellfield Production

**STAFF REPORT**

**Agenda Item: 9**

**Board Meeting Date: April 6, 2022**  
**Prepared By: Don Smith**  
**Approved By: Brett Hodgkiss**

**SUBJECT:** TREATMENT OF HARMFUL ALGAL BLOOMS IN LAKE HENSHAW

**RECOMMENDATION:** Authorize the General Manager to execute an as-needed services agreement with Aquatechnex LLC to provide services related to the treatment of harmful algal blooms in Lake Henshaw in an amount not to exceed \$600,000.

**PRIOR BOARD ACTION:** The Board authorized the General Manager to execute a professional services agreement with Stillwater Sciences to provide services related to the management and mitigation of HABs in Lake Henshaw on February 3, 2021.

**FISCAL IMPACT:** The Harmful Algal Blooms (HABs) Treatment as-needed services agreement is proposed for an amount not to exceed \$600,000. The project is being pursued jointly by the District and City of Escondido (Escondido) per the terms of the 2017 Local Entities' Agreement. The District will be administering the agreement for this project; however, the project cost will be shared equally by the District and Escondido, resulting in a net cost to the District of up to \$300,000.

**SUMMARY:** The District prepared a Request for Proposal (RFP) in order to solicit bids for the application of algaecides to treat HABs in Lake Henshaw. The RFP was sent to four qualified applicators, and the District received responses from Marine Biochemists and Aquatechnex.

The RFP asked each respondent to propose costs to provide a single treatment at Lake Henshaw with each of three different algaecides (total of three applications of algaecide): chelated copper (similar to Cutrine Plus); copper compound plus phosphorus binding agent (similar to SeClear); and hydrogen peroxide compound (similar to Phycomycin). Each proposal also included insurance and bonding, preparation of an Application Plan, and preparation of an annual report as required by the District's aquatic pesticide permit. The proposed cost by each respondent is as follows:

<u>Bidder</u>	<u>Bid Amount</u>
Aquatechnex LLC	\$235,810.00
Marine Biochemists	\$348,335.20

The as-needed services agreement will require the contractor to furnish material and services according to the unit costs included in their proposal. The agreement amount (not to exceed limit of \$600,000) will allow the District, Escondido and their HABs consultant (Stillwater Sciences) flexibility to structure a course of multiple treatments as needed to implement the recommendations arising out of the HABs Management and Mitigation Plan through June 30, 2023. For reference, the proposed upper limit would allow up to five treatments using a peroxide based algaecide; actual lake treatment may employ other treatment strategies in accordance with the HABs Management and Mitigation Plan.

**DETAILED REPORT:** Stillwater Sciences is preparing a draft HABs Management and Mitigation Plan that will be presented to the Board this summer, which will identify a set of short term and long term strategies to minimize the effects of HABs on the beneficial uses of local water in the Local Water System. Among those strategies are: the treatment of cyanobacterial blooms in Lake Henshaw with algaecides to prevent or minimize the production of cyanotoxins; the removal of the nutrient phosphorus from the system to limit cyanobacterial

growth; and the sealing of sediments in Lake Henshaw to limit the release of nutrients from the sediments to the water column. The as-needed services agreement for the treatment of HABs in Lake Henshaw will allow flexibility to implement several of these strategies and assess how long the treatments will last and how effective they will be. A significant goal of the effort will be to prevent the disruption of local water deliveries due to elevated cyanotoxin levels.

An initial algaecide treatment was performed at Lake Henshaw on March 14 and 15, 2022 by an algaecide applicator (Marine Biochemists) under contract to the City of Escondido. The effects of that algaecide application on lake water quality are currently being evaluated.

**STAFF REPORT**

**Board Meeting Date:** April 6, 2022  
**Approved By:** Brett Hodgkiss

SUBJECT: DISTRICT COMMITTEES

RECOMMENDATION: Appoint committee alternates for 2022.

PRIOR BOARD ACTION: At its January 6, 2022 meeting, the Board reviewed and ratified President Miller's committee and representatives to outside organizations appointments (list attached).

FISCAL IMPACT: Undetermined amount of expenses and per diem.

SUMMARY: Annually, at the first Board meeting of the calendar year, the President appoints committee members and representatives to outside organizations; the Board ratifies said appointments. Alternates are appointed to represent the District to outside organizations when the appointee is unavailable to do so; there are currently no alternates for standing committees so committee business cannot be conducted if one of its members is unavailable to meet for a prolonged period. To ensure that committee business can continue to be conducted, it is recommended that one Director be appointed as an alternate for each committee to serve in the event of an extended absence of one of its members. In all circumstances, the use of an alternate must comply with the Ralph M. Brown Act and any other applicable law for the alternate to be permitted to participate.

13. Imported Water – Closed Session.

The Board approved the Imported Water Committee's recommendation that, at the Board's regular June meeting, the issue of what to do with the \$14,649,112.78 in attorney's fees, costs and interest paid by Metropolitan Water District of Southern California to the Water Authority on March 21, 2022, be part of the closed session on the MWD litigation. General Counsel notes that if the Board approves this recommendation, though this issue will be addressed in June's closed session because litigation actions may affect it, any decision by the Board will be publicly reported.
