MINUTES OF THE ADJOURNED MEETING OF THE BOARD OF DIRECTORS OF VISTA IRRIGATION DISTRICT

January 22, 2020

An Adjourned Meeting of the Board of Directors of Vista Irrigation District was held on Wednesday, January 22, 2020, at the offices of the District, 1391 Engineer Street, Vista, California.

1. CALL TO ORDER

President Vásquez called the meeting to order at 9:00 a.m.

2. ROLL CALL

Directors present: Miller, Vásquez, Dorey, Sanchez, and MacKenzie.

Directors absent: None.

Staff present: Brett Hodgkiss, General Manager; Lisa Soto, Secretary of the Board; Don Smith, Director of Water Resources; Randy Whitmann, Director of Engineering; Frank Wolinski, Director of Operations and Field Services; Shallako Goodrick, Finance Supervisor; Mark Saltz, Water Resources Specialist; Marlene Kelleher, Director of Administration; and Ramae Ogilvie, Administrative Assistant. General Counsel David Cosgrove was also present.

Other attendees: Daphnie Munoz of White Nelson Diehl Evans LLP; and Barbara Kus, Research Ecologist for the United States Geological Survey (USGS) and Scarlett Howell, Field Researcher for USGS.

3. PLEDGE OF ALLEGIANCE

Director Miller led the pledge of allegiance.

4. APPROVAL OF AGENDA

20-01-07 Upon motion by Director MacKenzie, seconded by Director Miller and unanimously carried (5 ayes: Miller, Dorey, Sanchez, MacKenzie, and Vásquez), the Board of Directors approved the agenda as presented.

5. ORAL COMMUNICATIONS

No public comments were presented on items not appearing on the agenda.

6. CONSENT CALENDAR

The Board commented briefly on the large permit fee paid to the State Water Resources Control Board shown in agenda Item 6.C, the Cash Disbursement Report.

20-01-08 Upon motion by Director Dorey, seconded by Director MacKenzie and unanimously carried (5 ayes: Miller, Dorey, Sanchez, MacKenzie, and Vásquez), the Board of Directors approved the Consent Calendar, including Resolution No. 20-03 approving disbursements.

A. Association of California Water Agencies Joint Powers Insurance Authority President's Special Recognition Awards

See staff report attached hereto. The Board noted and filed this informational report.

B. Minutes of Board of Directors meeting on January 8, 2020

The minutes of January 8, 2020 were approved as presented.

C. Resolution ratifying check disbursements

RESOLUTION NO. 20-03

BE IT RESOLVED, that the Board of Directors of Vista Irrigation District does hereby approve checks numbered 63473 through 63593 drawn on Union Bank totaling \$741,800.21.

FURTHER RESOLVED that the Board of Directors does hereby authorize the execution of the checks by the appropriate officers of the District.

PASSED AND ADOPTED unanimously by a roll call vote of the Board of Directors of Vista Irrigation District this 22nd day of January 2020.

* * * * * * * * * * * * * * * * *

7. FISCAL YEAR 2019 AUDIT

See staff report attached hereto.

Director of Administration Marlene Kelleher introduced Daphne Munoz of White Nelson Diehl Evans LLP (auditors), who presented the results of the audit for the year ended June 30, 2019. Ms. Munoz reviewed the auditors' opinion and the methods and standards by which the audit was conducted. She stated that the District's financial statements and best practices were reviewed, and the auditors found no material weaknesses involving the District's internal control structure or its operation. She noted that the auditors encountered no significant difficulties in performing the audit and that there were no disagreements with management.

Ms. Munoz stated that the auditors made a recommendation to staff regarding a recent increase in fraudulent activity related to fictitious vendors notifying entities, such as the District, of bank information changes for electronic payments. The auditors recommended implementing a system in which any banking information change requests are followed up by District staff before any changes or payments are processed in order to decrease the risk of fraudulent payments to fictitious vendors.

The Board thanked Ms. Munoz for her report. General Manager Brett Hodgkiss and the Board thanked Ms. Kelleher and Finance Supervisor Shallako Goodrick as well as Finance staff for their good work and another clean audit.

20-01-09	Upon motion by Director Sanchez, seconded by Director Dorey and unanimously carried
	(5 ayes: Miller, Dorey, Sanchez, MacKenzie, and Vásquez), the Board of Directors
	accepted the Fiscal Year 2019 Audit report by White Nelson Diehl Evans LLP.

Ms. Munoz left the meeting at this time.

8. FINANCIAL REPORT FOR THE YEAR ENDED JUNE 30, 2019

See staff report attached hereto.

Ms. Kelleher presented the Financial Report for the year ended June 30, 2019. She stated that this report is the same information included in the Comprehensive Annual financial Report, but more detailed, comparing the budget versus actual expenditures. She stated that overall the District experienced a \$5.1 million operating gain in Fiscal Year 2019, which is a decrease from the \$5.3 million operating gain for the prior fiscal year. Ms. Kelleher noted that the District purchased \$21.3 million of water from the San Diego County Water Authority. She reviewed and explained the revenue and expense budget comparison as well as the property revenues and legal expenses.

Director MacKenzie noted that only about half of the small amount budgeted for tuition reimbursement was used. She encouraged staff to promote the tuition reimbursement program and make sure employees know it is available to help. Mr. Hodgkiss stated that employees are made aware of the program by their supervisors and/or managers; however, the level of participation can vary from year to year. The Board thanked Ms. Kelleher for her report.

9. STUDY OF SOUTHWESTERN WILLOW FLYCATCHER ON DISTRICT LAND

See staff report attached hereto.

Director of Water Resources Don Smith stated that in 2015 the Board authorized the United States Geological Survey (USGS) to conduct field surveys, nest monitoring, and color banding of southwestern willow flycatchers (SWFL) on District lands. He said that staff has received annual reports on the study from Research Ecologist Barbara Kus, who conducted the study. Mr. Smith commented that the reports had been unremarkable for the first few years; however, in 2018 that changed, when the study area included Lake Henshaw for the first time. Low water levels at Lake Henshaw lead to new riparian growth, which is thought to be the reason several southwestern willow flycatcher habitats were found in the Lake Henshaw area. Mr. Smith said that the report that USGS is preparing for the San Diego Association of Governments (SANDAG) is still pending, but Ms. Kus was in attendance to present preliminary data.

Mr. Kus introduced Project Lead Scarlet Howell, who was in attendance to answer any questions the Board may have regarding the study. Ms. Kus presented the status of the SWFL on District lands and highlights from the study via a PowerPoint presentation (attached hereto as Exhibit A). She stated that the report being prepared for SANDAG will be available for review later in the year.

Ms. Kus presented background regarding the SWFL stating that it was listed as federally endanger in 1995, and its population has continued to decline due to shrinking riparian habitat and brood parasitism by the brown-headed cowbird. She reviewed how the study was conducted, and what type of information was gathered. Ms. Kus noted that the information collected along the upper San Luis Rey River was compared to other populations throughout the rest of the range in an attempt to identify threats and reasons for the population declines. She said that 16 territories of SWFL were located at Lake Henshaw in 2018 and that the number of territories increased to 24 in 2019. She commented that many of the birds found at

Lake Henshaw were color banded, which provided researchers with good information about the movement of adults between breeding locations.

Ms. Kus stated that the largest population of the SWFL in Southern California occurs on the Upper San Luis Rey River, and District land supports approximately 56-68 percent of this population. The District population appears to be buffered against steep population declines regionally; however, low productivity remains a concern. She said that the study has demonstrated the compatibility between water management and endangered species conservation, particularly SWFL conservation, since it is a water-associated species.

Ms. Kus thanked the Board for allowing USGS to conduct research on District property, and she looks forward to being able to continue this relationship in order to learn more about how to protect the SWFL species. Ms. Kus stated that USGS would like to seek additional authorization (at a later date) to continue to survey the Lake Henshaw area for the SWFL in order to monitor its population size and distribution.

The Board commented and received clarifications on the information presented from Ms. Kus and Ms. Howell. The Board thanked them both for an enlightening presentation. Ms. Kus and Ms. Howell left the meeting at this time.

10. RESOLUTION HONORING PAST PRESIDENT JO MACKENZIE

See staff report attached hereto.

The Board thanked Director MacKenzie for her services as President of the Board in 2019.

20-01-10	Upon motion by Director Miller, seconded by Director Dorey, the Board of Directors adopted Resolution 20-04 honoring the District's 2019 past president, Jo MacKenzie, by the following roll call vote:		
	AYES:	Directors Miller, Vásquez, Dorey, Sanchez, and MacKenzie	
	NOES:	None	
	ABSTAIN:	None	
	ABSENT:	None	
	A copy of Resolution 20-04 is on file in the official Resolution Book of the District.		

President Vásquez presented her with a framed copy of the resolution.

11. MATTERS PERTAINING TO THE ACTIVITIES OF THE SAN DIEGO COUNTY WATER AUTHORITY

See staff report attached hereto.

Director Miller stated that there had not been a meeting of the San Diego County Water Authority (Water Authority) Board of Director since November, and the next meeting was scheduled for the following day. He commented on the status of an offer made by the Metropolitan Water District (MWD) to the Water Authority to settle the ongoing legal dispute between the two agencies, and the counter-offer the Water Authority made to MWD, stating that Water Authority had not received a response from MWD regarding its counter-offer.

Regarding the potential detachment of Fallbrook Public Utilities District and Rainbow Municipal Water District from the Water Authority, Director Miller stated that both agencies have submitted the necessary paperwork to the Local Agencies Formation Commission (LAFCO) and both are awaiting LAFCO's response.

Mr. Hodgkiss reported that on January 14, 2020, the District was informed by the Water Authority about a leak on treated water pipeline, Pipeline 1 east of North Broadway in Escondido. In order to repair this leak, there will be a 10-day shutdown, February 10-19, 2020.

Mr. Hodgkiss reported on an email he received from Water Authority General Manager Sandi Kerl, announcing some organizational changes at the Water Authority, including Dan Denham being named as Deputy General Manager. The Water Authority will conduct a recruitment to fill its Assistant General Manager position. Director Miller said that he met with Ms. Kerl the previous week, and she expressed her intention to provide more outreach to its member agencies and her desire to make the Water Authority more accessible, supportive and involved with its member agencies.

12. MEETINGS AND EVENTS

See staff report attached hereto.

Director Dorey reported on his attendance at the Sustainable Groundwater Management Act Workshop hosted by the California Department of Water Resources and the State Water Resources Control Board on January 9, 2020 in Clovis, California. The workshop included a review of the evaluation and assessment process for Groundwater Sustainability Plans (GSPs) submitted by Groundwater Sustainability Agencies and the annual reporting requirements and assistance programs to support GSP implementation.

Director MacKenzie said that she was previously approved to attend the City of Vista State of the Community Luncheon on January 27; however, she had to cancel due to a scheduling conflict. Director MacKenzie asked to be put back on the list of approved attendees, as her schedule had cleared for that day. She stated that she was also previously authorized to attend the San Diego Chapter, California Special Districts Association (CSDA) quarterly dinner meeting in Kearny Mesa on February 20; unfortunately, she will not be able to attend. She suggested her fellow Board members consider attending to represent the District. Director Sanchez said that he would check his availability and consider attending if available.

Director MacKenzie reported on her attendance at the recent CSDA Board meeting. She brought copies for the Board of information regarding CSDA Conferences planned for 2020. She also provided the Board with a list of CSDA accomplishments in 2019. She stated that she also attended a San Diego Chapter CSDA Board meeting in which the Board discussed moving forward with registering with the Internal Revenue Service as a non-profit unincorporated association. The San Diego Chapter CSDA Board also discussed grants for visits to select local special districts available to fourth through eighth grade classes.

President Vásquez reported that he attended the Council of Water Utilities (COWU) meeting the previous morning where Nancy Vogel, Director of the Governor's Water Portfolio Program at the California Natural Resources Agency, spoke about the Water Resilience Portfolio. He said it was noted in her presentation that the Water Resilience Portfolio does not impose any new mandates but rather seeks to implement conservation as a way of life. The draft Water Resilience Portfolio is currently out for public review with comments due by February 7, 2020. President Vásquez noted that new financial policies for COWU were also presented at this meeting and were voted on and approved by the membership in attendance. The new policies outline COWU's relationship with its new fiscal sponsor, Labor's Alliance. Mr. Hodgkiss stated that as COWU Treasurer, he will be tasked with reviewing and providing approval for expenditures and reimbursements, and Labor's Alliance will issue payments following his approval.

20-01-11 Upon motion by Director Miller, seconded by Director MacKenzie and unanimously carried (5 ayes: Miller, Dorey, Sanchez, MacKenzie, and Vásquez), the Board of Directors authorized Director MacKenzie to attend the City of Vista State of Community Luncheon on January 27, 2020, and Director Dorey to attend the upcoming ACWA Groundwater Committee meeting February 11, 2020 in Sacramento.

13. ITEMS FOR FUTURE AGENDAS AND/OR PRESS RELEASES

See staff report attached hereto.

Mr. Hodgkiss stated that the list of upcoming items for future agendas includes the Water Supply Planning Study. He queried if the Board had a preference for the date on which to hold the workshop covering this topic. The Board discussed their respective schedules and agreed that Wednesday, March 11, 2020 at 9:00 a.m. would be ideal. The Board also discussed the impending June 2020 deadline for renewing its ethics training and requested that staff inquire with General Counsel to see if he or his designee could provide Ethics training for the Board on May 12 or May 14, 2020.

14. COMMENTS BY DIRECTORS

Director Miller said he attended a Water Authority Committee Chairs meeting the previous day at the Water Authority where Nancy Vogel (identified in agenda Item 12 above) and those present discussed alternatives for transporting water from the Imperial Irrigation District to San Diego. The discussion included current plans for the proposed northern alignment, which was originally being planned to pass by Lake Henshaw and end at the Twin Oaks Water Treatment Plant; however, the alignment is now going to go through the mountains via a tunnel and end in Escondido.

15. COMMENTS BY GENERAL MANAGER

Mr. Hodgkiss informed the Board that the water level at Lake Henshaw was at 5,000 acre feet.

16. ADJOURNMENT

There being no further business to come before the Board, at 11:00 a.m., President Vásquez adjourned the meeting.

ichard L. Vásquez, President

STAFF REPORT

Agenda Item: 6.A

Board Meeting Date: January 22, 2020
Prepared By: Sherry Thorpe
Reviewed By: Marlene Kelleher
Approved By: Brett Hodgkiss

SUBJECT: ASSOCIATION OF CALIFORNIA WATER AGENCIES JOINT POWERS INSURANCE

AUTHORITY PRESIDENT'S SPECIAL RECOGNITION AWARDS

<u>RECOMMENDATION</u>: For information only.

PRIOR BOARD ACTION: None.

FISCAL IMPACT: None.

<u>SUMMARY</u>: Vista Irrigation District was recently presented President's Special Recognition Awards from Association of California Water Agencies Joint Powers Insurance Authority (ACWA JPIA).

<u>DETAILED REPORT</u>: The ACWA JPIA President's Special Recognition Awards acknowledge the District's efforts in maintaining a low loss ratio in the Workers' Compensation and Liability programs for the annual policy periods of 2015 to 2018. The receipt of these awards is an acknowledgment that the District, with assistance from ACWA JPIA staff, is continuing its efforts to limit its exposure to workers' compensation and liability claims. These coordinated activities coupled with an actively involved and dedicated workforce have resulted in a reduction in premium costs.

The Workers' Compensation Program award recognizes that the number of injuries and lost time due to injury have steadily declined.

The Liability Program award recognizes that for the annual policy periods of 2015 to 2018 the District did not submit a single claim for loss. As a result, the District's experience modification factor dropped from 1.67 to the current rate of 0.65. This decrease has translated to annual premium savings of \$111,578 for the 2020 policy year.

ATTACHMENTS: Award Certificates

President's Special Recognition Award

The President of the ACWA JPIA

hereby gives Special Recognition to

Vista Irrigation District

for achieving a low ratio of "Paid Claims and Case Reserves" to "Deposit Premiums" in the Workers' Compensation Program for the period 07/01/2015 - 06/30/2018 announced at the Board of Directors' Meeting in San Diego.

STAFF REPORT

Agenda Item: 7

Board Meeting Date: January 22, 2020
Prepared By: Shallako Goodrick
Reviewed By: Marlene Kelleher
Approved By: Brett Hodgkiss

SUBJECT: FISCAL YEAR 2019 AUDIT

<u>RECOMMENDATION:</u> Accept the Fiscal year 2019 audit report by White Nelson Diehl Evans LLP.

PRIOR BOARD ACTION: None.

FISCAL IMPACT: None by this action. The fees for Fiscal Year 2019 audit services are \$24,650.

<u>SUMMARY</u>: The District's independent auditors, White Nelson Diehl Evans LLP, are issuing an unmodified opinion on the District's Financial Section in the Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2019. The CAFR will be discussed in detail during the Board meeting.

The independent auditors found no material weaknesses involving the internal control structure or its operation. As requested, the auditors have reviewed the District's best practices to evaluate potential enhancements to District procedures and have communicated, via memorandum, other matters that could enhance the District's best practices. Management's response to their finding is included in the letter. The letter will be discussed in detail during the Board meeting.

<u>DETAILED REPORT</u>: See attached financial statements and the auditor's letters. Daphnie Munoz, CPA Partner, White Nelson Diehl Evans LLP, will be in attendance to present the audit.

Board Secretary

David B. Cosgrove

General Counsel

To the Board of Directors and customers served by the Vista Irrigation District:

We are pleased to present the Vista Irrigation District's (the District's) Comprehensive Annual Financial Report (CAFR) for the fiscal year ended June 30, 2019. The purpose of the report is to provide the Board of Directors, our customers, and any other interested parties with reliable financial information about the District.

The report was prepared by the District's Finance Department following guidelines set forth by the Governmental Accounting Standards Board (GASB) and generally accepted accounting principles (GAAP). Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation, including disclosures, rests with the District. We believe the data, as presented, is accurate in all material respects and that it is presented in a manner that provides a fair representation of the financial position and results of operations of the District. Included are all disclosures we believe necessary to enhance your understanding of the financial condition of the District. Internal controls are an important part of any financial reporting framework, and management of Vista Irrigation District has established a comprehensive framework of internal controls to provide a reasonable basis for asserting that the financial statements are fairly presented. Because the cost of an internal control should not exceed the benefits to be derived, the objective is to provide reasonable, rather than absolute assurance, that the financial statements are free of any material misstatements.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). The letter of transmittal is designed to complement Management's Discussion and Analysis and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

The District's financial statements have been audited by White Nelson Diehl Evans LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements;

assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

Profile of the District

District's Service Area

The District's service area consists of a 33-square mile area in the northwestern quadrant of San Diego County that lies west of the Interstate 15 Freeway and east of the Interstate 5 Freeway, encompassing approximately 21,152 acres. Within the District's boundaries are the City of Vista; portions of the cities of San Marcos, Escondido and Oceanside; and unincorporated areas of the county. The District provides potable water to its service area.

District's Authority

Vista Irrigation District is a special district of the State of California organized in 1923 under the Irrigation District Act (Water Code §20500, et. Seq.) and authorizing statutes (Water Code §22975, et. Seq.) and approved by voters on August 28, 1923 which coincided with the building of Henshaw Dam in 1923 by the San Diego County Water Company. Completion of the dam made it possible for the Vista community to receive a reliable source of water, instead of relying on wells in the area. In June 1946, the District purchased the San Diego County Water Company. Included in the purchase was the 43,000-acre Warner Ranch, which includes Henshaw Dam and Lake Henshaw. In 1954, the District became a member of the San Diego County Water Authority (SDCWA) in order to receive water imported from the Colorado River and Northern California.

The State of California Water Code also authorizes the District to exercise the power of eminent domain; to fix, revise and collect rates or other charges for the delivery of water, use of facilities or property, or provision of service; and to fix in each fiscal year, a water standby or availability charge on land within the boundaries of the District to which water is made available by the District. The District may also issue bonds, borrow money and incur indebtedness.

Governance

The District's Board of Directors is comprised of five members elected by the citizens within their geographical area. Each Director serves a four year staggered term and must be a resident of the division he or she represents. The District operates under a Board-Manager form of government. The General Manager is appointed by the Board, and administers the daily affairs of the District and carries out policies of the Board of Directors. The District budgets a staff of 89 under the direction of the Board-appointed General Manager.

Water Services

The District serves more than 28,700 customers. Typically, thirty percent of the District's water comes from its local water supply, Lake Henshaw, and seventy percent comes from three imported water sources, the Colorado River, the Pacific Ocean (desalination), and the Sacramento River/San Joaquin River Delta in Northern California. The District currently delivers approximately 15,500 acre feet of water annually to its customers.

The water system operates over 429 miles of pipe, 12 storage reservoirs, and 7 pumping stations. The District jointly owns the Escondido-Vista water treatment plant with the City of Escondido. The Escondido-Vista water treatment plant (EVWTP) has a permitted capacity of 75 MGD and treats raw water before it is delivered to customers.

Local Economy

District Economic Results

The estimated population of the District is 136,772 as of fiscal year 2019. According to the San Diego Association of Governments (SANDAG), the median age of residents within the District as calculated during the most recent US Census, was 34.9 years and the per capita personal income of residents in the City of Vista, which encompasses the majority of the District, was \$43,203. From 2009 to 2019 the population increased 10.9%, and median household income (adjusted for inflation) increased by 3.7%.

The demand for new connections increased, with the District's total service connections increasing in fiscal year 2019 from 28,688 connections to 28,780. Water sales for fiscal year 2019 were 15,484 acre feet, down 1,453 acre feet or 8.6% from sales of 16,937 in fiscal year 2018. Of the 15,484 acre feet, or 5.0 billion gallons sold in fiscal year 2019, 70% was distributed for residential use, 11% for industrial and commercial use, 12% for landscape irrigation use, 5% for agricultural use and 2% for governmental use.

Until the Lake Henshaw area receives several years of average to above average rainfall, surface water run-off totals will not appreciably increase the lake level nor will a significant amount of groundwater recharge take place. As a result, the District will continue to need to purchase imported water to meet the balance of customer needs.

Bay-Delta Fix

The Bay-Delta, a 1,000 square mile network of islands and waterways at the confluence of the Sacramento and San Joaquin rivers east of San Francisco Bay, is a key water supply source for California, including the 3.1 million residents and business community in San Diego County.

Water supplies from the Bay-Delta come to San Diego County via the State Water Project. The Metropolitan Water District of Southern California (MWD) purchases the

water from the state Department of Water Resources under a water supply contract. This water has become increasingly unreliable in recent years as deteriorating ecological conditions have led to regulatory restrictions on pumping water supplies from the Bay-Delta. How much and when the District would begin paying for a Bay-Delta fix is undetermined at this time.

MWD Lawsuit

The SDCWA has filed lawsuits against MWD claiming that their rates violate cost-of-service requirements of California law. The central issue in the litigation related to MWD including in its transportation and wheeling rates the transportation costs it incurs to move SDCWA's Colorado River supplies. The Court of Appeal overturned a lower court's finding, upholding the rates as valid. SDCWA's appeal of the Court of Appeal's ruling was denied by the California Supreme Court in September 2017.

SDCWA won other claims against MWD including that MWD must pay SDCWA for Water Stewardship charges added to the transportation rates charged from 2011 to 2014. The final amount of damages will be determined by the trial court on remand. The court also determined that MWD did not properly calculate SDCWA's water right to MWD's water supply and indicated that a contract clause relating to receiving funding associated with local water supply projects in San Diego County must be removed.

SDCWA's Board of Directors has determined that any money returned to them will be refunded to its member agencies, including the District, in proportion to their payment of MWD's overcharges over the years in dispute, after deducting any litigation expenses that are not recovered. At this point, VID is unable to determine the amount, if any, that would be returned to the District.

SDCWA has two additional cases challenging MWD's rates from 2015 to 2018 that have been stayed in Superior Court while the appellate proceeding were ongoing and are now expected to move forward again.

Long-Term Financial Planning

New facilities and system improvements are funded by water rates. Water rates are increased over time based on the long range capital improvement plan. Replacement facilities are financed by depreciation and interest on accumulated depreciation. Expanded facilities are funded by developer fees and capacity charges.

Items in the long range capital improvement plan are determined not only by the depreciation schedule, but through a process which assesses a combination of factors including age, condition and the critical nature of the facility. The long range capital improvement plan spreads projects over several years to maintain a constant level of capital projects to maximize the efficiency of District resources. Funds collected or accumulated in years in which there are no new or expanded facilities are placed into the

District's construction reserve account. Funds in the construction reserve account are used to pay for construction projects in years that the costs of construction projects exceed the amount collected from water rates.

Major Initiatives

Mainline Replacement Program

In 1995 the Board of Directors initiated an on-going Main Replacement Program with the goal of replacing aging pipelines before they reach the end of their useful life and become a maintenance liability. Formalizing a Main Replacement Program has allowed pipe replacements to be prioritized based on the age of the line, leak history, and pipe material as well as factors related to site conditions. Another important factor is input from District crews, who evaluate the line's condition at the time repairs are being made.

Since its inception, the Board has allocated \$29.6 million to the program which has allowed the replacement of nearly 34.25 miles of older pipe ranging in size from 4 to 20 inches. The Board approved another \$2.5 million for this program as part of the capital improvement program for fiscal year 2020.

Accomplishments

Financial Statement Awards and Acknowledgements

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Vista Irrigation District for its CAFR for the fiscal year ended June 30, 2018. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to GFOA to determine its eligibility for another certificate.

Acknowledgements

We would like to express our appreciation to the Finance Department staff and the independent accounting firm of White Nelson Diehl Evans LLP for the efforts made to prepare this report. We would also like to thank the members of the District's Board of

Directors for their continued interest and support in all aspects of the District's financial management.

Respectfully submitted,

Brett Hodgkiss

INDEPENDENT AUDITORS' REPORT

Board of Directors Vista Irrigation District Vista, California

We have audited the accompanying financial statements of Vista Irrigation District (the District) as of and for the years ended June 30, 2019 and 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the Vista Irrigation District as of June 30, 2019 and 2018, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the Schedules of Proportionate Share of the Net Pension Liability and Related Ratios as of the Measurement Date, the Schedules of Contributions - Pension Plans, the Schedules of Changes in the Net OPEB Liability and Related Ratios, the Schedules of Contributions - OPEB, as identified as Required Supplementary Information (RSI) in the accompanying table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the RSI in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The introductory section and the statistical section as identified in the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

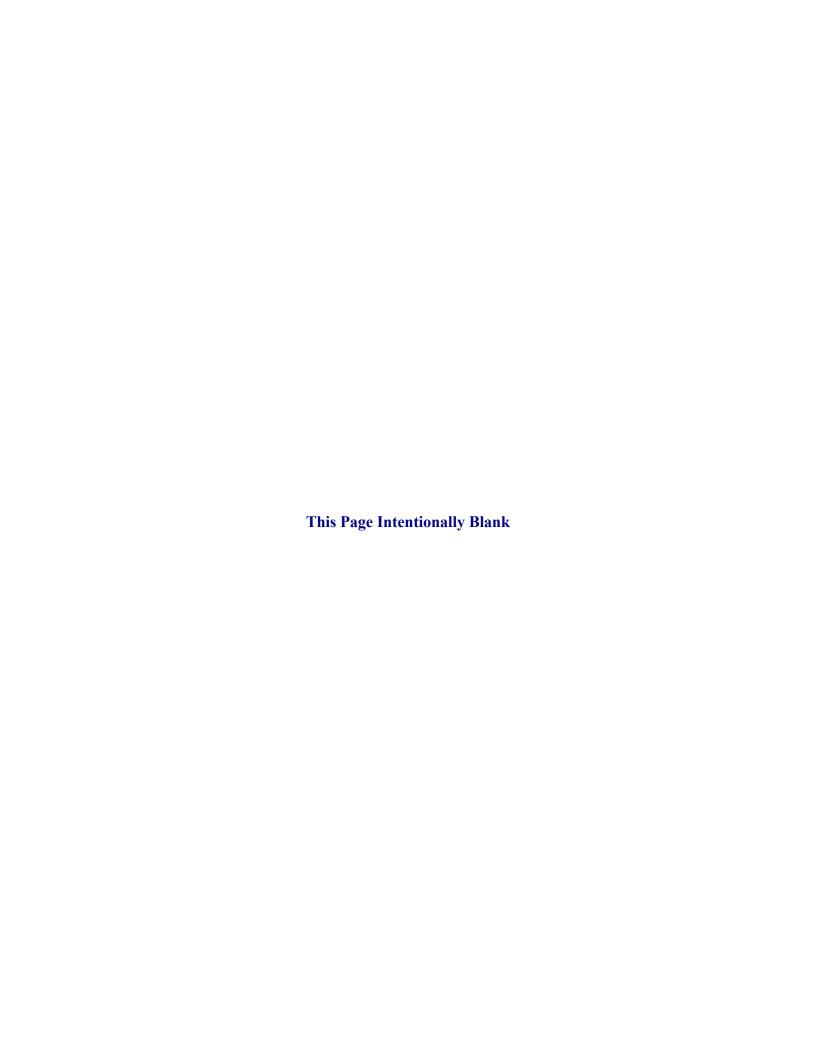

Other Reporting Required by Government Auditing Standards

White Nelson Diehl Grans UP

In accordance with Governmental Auditing Standards, we have also issued our report dated December 3, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Governmental Auditing Standards in considering the District's internal control over financial reporting and compliance.

Carlsbad, California

December 3, 2019

Our discussion and analysis of the Vista Irrigation District's financial performance provides an overview of the District's financial activities for the year ended June 30, 2019. Please read it in conjunction with the District's financial statements which begin on page 10. This annual financial report consists of two parts -- Management's Discussion and Analysis (this section) and the Financial Statements.

Financial Statements

The District's financial statements include four components:

- Statements of Net Position
- Statements of Revenues, Expenses and Changes in Net Position
- Statements of Cash Flows
- Notes to Financial Statements

The statements of net position include all of the District's assets, deferred outflows, liabilities and deferred inflows, with the difference reported as net position. Net Position is displayed in two categories:

- Investment in capital assets
- Unrestricted

The statements of net position provide the basis for evaluating the capital structure of the District and assessing its liquidity and financial flexibility.

The statements of revenues, expenses and changes in net position present information which shows how the District's net position changed during each year. All of the year's revenues and expenses are recorded when the underlying transaction occurs, regardless of the timing of the related cash flows. The statements of revenues, expenses and changes in net position measure the success of the District's operations during the year and determine whether the District has recovered its costs through user fees and other charges.

The statements of cash flows provide information regarding the District's cash receipts and cash disbursements during the year. These statements report cash activity in four categories:

- Operating
- Noncapital financing
- Capital and related financing
- Investing

These statements differ from the statements of revenues, expenses and changes in net position by only accounting for transactions that result in cash receipts or cash disbursements.

The notes to the financial statements provide a description of the accounting policies used to prepare the financial statements and present material disclosures required by accounting principles generally accepted in the United States of America that are not otherwise present in the financial statements.

Financial Highlights

Fiscal Year 2019

- Overall, operating revenues and expenses decreased by 2.7% due a decrease in water demand of 4.1% and the resulting decrease in the purchase of water due to rain.
- The District recorded a \$3.6 million gain on sale of a 3.96 acre vacant lot owned by the District.

Fiscal Year 2018

- Overall, operating revenues increased 7.0%, while operating expenses increased 1.0%.
- The District realized a \$5.3 million operating gain during fiscal year 2018 primarily due to increased water sales and higher water rates. Costs of purchased water were lower in the fiscal year, due to less imported water activity, as a result of increased availability of local water.
- The District recorded a \$1.0 million prior period adjustment to increase the June 30, 2017 net position balance, as a result of an unbilled revenue accrual adjustment.
- The District implemented GASB Statement No. 75 during the fiscal year, which required the establishment of other post-employment benefits (OPEB) liability, deferred outflows/inflows of resources, and retiree health insurance expense according to the Statement's provisions. This resulted in a \$4.8 million prior period adjustment to decrease the June 30, 2017 net position balance, as well as the recording of \$0.5 million in net OPEB liability.

Financial Analysis of the District

Net Position - The District's overall net position increased \$11.7 million between fiscal years 2018 and 2019, from \$112.7 to \$124.4 million, primarily due to operating revenue of \$5.1 and a \$3.6 million gain on the sale of vacant land. The District's overall net position increased \$7.4 million between fiscal years 2017 and 2018, from \$105.3 to \$112.7 million, primarily due to increased water sales. The investment in capital assets increased \$3.2 million in 2019 and \$4.7 million in 2018, which reflect the excess of net capital additions over the current year depreciation and dispositions.

Vista Irrigation District's Net Position

(In Millions of Dollars)

	2019	2018	2017 Restated
Current assets Capital assets Total Assets	\$ 48.5 97.8 146.3	\$ 43.2 94.6 137.8	\$ 34.8 89.9 124.7
Deferred outflows of resources	5.0	6.8	5.7
Current liabilities Noncurrent liabilities Total Liabilities	9.6 16.2 25.8	13.2 17.1 30.3	8.9 14.9 23.8

Net Position: Investment in capital assets Unrestricted	97.8 26.6	94.6 18.1	89.9 15.4
Total Net Position	\$ <u>124.4</u>	\$ <u>112.7</u>	\$ <u>105.3</u>

Change in Net Position – In fiscal year 2019, the District's operating revenues decreased by 2.7% to \$50.4 million, and 94.8% of the District's operating revenues came from water sales. The decrease in operating revenues resulted primarily due to decreased water sales, as a result of higher rainfall in the current year. In fiscal year 2018, the District's operating revenues increased by 7.0% to \$51.8 million, and 96.1% of the District's operating revenues came from water sales. The increase in operating revenues resulted primarily due to increased water sales and higher water rates.

During fiscal year 2019, the District's operating expenses decreased 2.7% to \$45.3 million primarily due to purchasing less imported water, along with a decrease in pension expense as a result of GASB 68 valuations, and an increase in water treatment plant costs. During fiscal year 2018, the District's operating expenses increased 1.0% to \$46.5 million primarily due to an increase in pension expense, as a result of GASB 68 valuations, and the annual payment of the PERS unfunded liability, along with an increase in contractual services relating to water treatment plant expenses.

Capital Assets

At June 30, 2019, the District had invested \$188.4 million in capital assets with \$90.6 million in accumulated depreciation. Net capital assets increased \$3.2 million as a result of capital acquisitions exceeding the annual depreciation and dispositions. During the year the District added \$6.9 million of capital assets. The largest capital additions were \$3.2 million in costs for several mainline replacement projects, \$0.6 million for reservoir rehabilitation, \$0.6 million for redevelopment project costs, and \$0.2 million for pressure regulating station costs. This year's capital reductions included the sale of a 3.96 acre unused lot, vehicles, computer equipment, replacement/disposals of pipelines, and other capital assets with a total historical cost of \$1.3 million. Depreciation for the year was \$3.2 million.

At June 30, 2018, the District had invested \$182.8 million in capital assets with \$88.1 million in accumulated depreciation. Net capital assets increased \$4.7 million as a result of capital acquisitions exceeding the annual depreciation and dispositions. During the year the District added \$7.7 million of capital assets. The largest capital additions were \$2.9 million in costs for several mainline replacement projects, \$1.9 million for reservoir rehabilitation, \$0.6 million for redevelopment project costs, and \$0.3 million for water treatment plant construction costs. The capital reductions for that year included vehicles, replacement/disposals of pipelines, reservoir-related assets, computer equipment, pump station assets, and other equipment with a total historical cost of \$0.5 million. Depreciation for the year was \$3.0 million.

Increase in fair value of investments	\$	469,473	\$	209,230

The accompanying notes are an integral part of the financial statements.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies

Description of the Reporting Entity

Vista Irrigation District (District) is a public entity established in 1923, pursuant to the Irrigation District Act of the California Water Code, for the purpose of providing water services to the properties in the District. The District's service area lies within the northwestern quadrant of San Diego County, encompassing approximately 21,152 acres. Historically, the District has received 30% of its water supply from Lake Henshaw which, along with the surrounding 43,000 acre Warner Ranch, is owned and operated by the District. The remaining 70% of the District's supply comes from Northern California through the State Water Project and from the Colorado River. These sources are conveyed to the District via aqueducts owned and operated by water wholesalers, the Metropolitan Water District of Southern California and the San Diego County Water Authority. The District is governed by a Board of Directors consisting of five directors elected by geographical divisions, based on District population, for four-year alternating terms.

The criteria used in determining the scope of the reporting entity are based on the provisions of the Governmental Accounting Standards Board (GASB) Statement 14. The District is the primary government unit and currently has no component units. Component units are those entities which are financially accountable to the primary government, either because the District appoints a voting majority of the component unit's board, or because the component unit will provide a financial benefit or impose a financial burden on the District.

Basic Financial Statements

The basic financial statements are comprised of the Statements of Net Position, the Statements of Revenues, Expenses and Changes in Net Position, the Statements of Cash Flows and the notes to the basic financial statements.

Basis of Presentation

The accounts of the District are reported as an enterprise fund. An enterprise fund is a Proprietary type fund used to account for operations (a) that are financed and operated in a manner similar to private business enterprises - where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied. The accompanying financial statements are reported using the economic resources measurement focus, and the accrual basis of accounting. Under the economic measurement focus all assets, deferred outflows of resources, liabilities and deferred inflows of resources (whether current or noncurrent) associated with these activities are included on the Statements of Net Position. The Statements of Revenues, Expenses and Changes in Net Position present increases (revenues) and decreases (expenses) in total net position. Under the accrual basis of accounting, revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. Those estimates and assumptions affect: the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statements of cash flows, all investment instruments are considered to be cash equivalents if purchased with a maturity of three months or less and are readily convertible to known cash amounts.

Investments

Investments are reported at fair value in the statement of net position. All investment income, including changes in the fair value of investments, is recognized as revenues in the statement of revenues, expenses, and changes in net position. Investments that are not traded on a market, such as investments in external pools, are valued based on the stated fair value as represented by the external pool.

Accounts Receivable

Accounts receivable includes both billed and unbilled water sales provided to District customers. An allowance for doubtful accounts is provided for uncollectible accounts based on the District's bad debt experience and on management's estimate.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

Inventories of Materials and Supplies

Inventories of materials and supplies consist primarily of materials used in the construction and maintenance of the water system and are valued at average cost.

Prepaid Expenses

Certain payments to vendors reflect costs or deposits applicable to future accounting periods and are recorded as prepaid items in the basic financial statements.

Capital Assets and Depreciation

The District records at cost the acquisition of capital assets greater than \$5,000 and with a useful life of 3 or more years. Contributed assets are recorded at their acquisition value at the date of acceptance by the District. Self-constructed assets are recorded in the amount of labor, material, and overhead incurred. Depreciation is charged to expense and is computed using the straight-line method over the estimated useful lives of the respective assets as follows:

TT C1T'C

	<u>Useful Life</u>
Buildings, canals, pipelines, reservoirs and dams	15 - 80 years
Equipment	3 - 25 years
Henshaw pumping project	10 - 20 years

Burden Allocation

The District allocates overhead burden costs to pipeline installation jobs, inspection work, fixed fee jobs, damage claims, and other small jobs. The overhead burden costs include management salaries, benefits, use of equipment, warehousing, and handling.

Vacation, Sick Leave, and Compensatory Time Off

The District records a liability equal to 100% of vacation earned and compensatory time off, and an applicable percentage of sick leave available to employees at year end (25%-100%), which is included in compensated absences, current and long-term portions. At June 30, 2019 and 2018 total compensated absences were \$1,222,826, and \$1,342,455, respectively.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

Pension Plans

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the California Public Employees Retirement System (CalPERS) Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. CalPERS audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

GASB Statement No. 68, "Accounting and Financial Reporting for Pensions" (GASB 68), requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used.

Valuation Date (VD) June 30, 2017 Measurement Date (MD) June 30, 2018

Measurement Period (MP) July 1, 2017 to June 30, 2018

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability and deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's OPEB Plan and additions to/deductions from the OPEB Plans' fiduciary net position have been determined on the same basis as they are reported by the Plan. For this purpose, the District's OPEB Plan recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until that time. The District has the following items that qualify for reporting in this category:

- Deferred outflows related to pensions. This amount is equal to employer contributions made after the measurement date of the net pension liability.
- Deferred outflows related to pensions for differences between expected and actual experiences. This amount is amortized over a closed period equal to the average of the expected remaining services lives of all employees that are provided with pensions through the plans.
- Deferred outflows from pensions resulting from changes in assumptions. This amount is amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the plans.
- Deferred outflows related to pensions resulting from the difference in projected and actual
 earnings on investments of the pension plans fiduciary net position. This amount is
 amortized over five years.
- Deferred outflows related to pensions for the changes in proportion and differences between employer contributions and the proportionate share of contributions. This amount is amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the plans.
- Deferred outflows related to OPEB. This amount is equal to employer contributions made after the measurement date of the net pension liability.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

Deferred Outflows/Inflows of Resources (Continued)

In addition to liabilities, the statements of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. The District has the following items that qualify for reporting in this category:

- Deferred inflows related to pensions for differences between expected and actual experiences. This amount is amortized over a closed period equal to the average of the expected remaining services lives of all employees that are provided with pensions through the plans.
- Deferred inflows from pensions resulting from changes in assumptions. This amount is amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the plans.
- Deferred inflows related to pensions for the changes in proportion and differences between employer contributions and the proportionate share of contributions. This amount is amortized over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the plans.
- Deferred inflows related to OPEB resulting from the difference in projected and actual earnings on investments of the OPEB plan fiduciary net position. This amount is amortized over five years.

Operating Revenues and Expenses

Operating activities generally result from providing services and producing and delivering goods. As such, the District considers fees received from water sales, capacity fees, connection and installation fees and property rentals to be operating revenues. The collection of deposits and return of deposits related to operating activities are reported in the District's cash flows from operating activities. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The collection of deposits and return of deposits related to the specific purpose of deferring the cost of acquiring, constructing or improving assets are reported in the District's cash flows from capital and related financing activities.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

Net Position

In the Statements of Net Position, net position is classified in the following categories:

- Investment in capital assets This amount consists of capital assets net of accumulated depreciation and reduced by outstanding debt that is attributed to the acquisition, construction, or improvement of the assets. The District has no outstanding debt at June 30, 2019 and 2018.
- Restricted net position This amount is restricted by external creditors, grantors, contributors, or laws or regulations of other governments.
- Unrestricted net position This amount is all net position that does not meet the definition of "investment in capital assets" or "restricted net position".

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted - net position and unrestricted - net position in the Statement of Net Position, a flow assumption must be made about the order in which the resources are considered to be applied.

It is the District's practice to consider restricted - net position to have been depleted before unrestricted - net position is applied.

Property Taxes

Property taxes are attached as an enforceable lien on property as of March 1. Taxes are levied on July 1 and are due in two installments. The first installment is due on November 1, and is payable through December 10 without penalty. The second installment is due February 1, and becomes delinquent on April 10. Property taxes are remitted to the District from the County of San Diego at various times throughout the year.

Risk Management

The District is exposed to various risks of loss related to torts; thefts of, damage to and destruction of assets; errors and omissions; and natural disasters. To help mitigate this risk, the District is a member of the Association of California Water Agencies Joint Powers Insurance Authority (Authority). The Authority is a risk-pooling self-insurance authority, created under provisions of California Government Code Sections 6500 et. seq. The purpose of the Authority is to arrange and administer programs of insurance for the pooling of self-insured losses and to purchase excess insurance coverage.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

Risk Management (Continued)

The District participates in the following self-insurance programs of the Authority:

<u>Property Loss</u> - Insured up to \$500,000,000 per occurrence (total insurable value \$32,649,149) with \$5,000 deductible for buildings, personal property, fixed equipment, mobile equipment, and licensed vehicles; the Authority is self-insured up to \$100,000 per occurrence and excess insurance coverage has been purchased.

General Liability - Insured up to \$60,000,000 per occurrence with no deductible; the Authority is self-insured up to \$5,000,000 and excess insurance coverage has been purchased.

<u>Auto Liability</u> - Insured up to \$60,000,000 per occurrence with no deductible for property damage; the Authority is self-insured up to \$5,000,000 and excess insurance coverage has been purchased.

<u>Public Officials' Liability</u> - Insured up to \$60,000,000 per occurrence; the Authority is self-insured up to \$5,000,000 and excess insurance coverage has been purchased.

<u>Crime</u> - Insured up to \$100,000 per occurrence with \$1,000 deductible; the Authority is self-insured.

<u>Dam Failure Liability</u> - Insured up to \$5,000,000 per occurrence with \$50,000 deductible; the Authority is self-insured up to \$50,000 and excess insurance coverage has been purchased.

Cyber Liability - Insured up to \$3,000,000 per occurrence/\$5,000,000 aggregate with \$50,000 deductible.

<u>Workers' Compensation (WC) and Employer's Liability (EL)</u> – Insured up to statutory limits per occurrence for WC and up to \$4,000,000 for EL. The Authority is self-insured up to \$2,000,000 and excess insurance coverage has been purchased.

The District pays annual premiums for these coverages. They are subject to retrospective adjustments based on claims experience. The nature and amounts of these adjustments cannot be estimated and are charged to expense as invoiced. There were no instances in the past three years where a settlement exceeded the District's coverage.

Note 1 - Reporting Entity and Summary of Significant Accounting Policies (Continued)

New Accounting Pronouncements

GASB Current Year Standards

GASB 83 - "Certain Asset Retirement Obligations", effective for periods beginning after June 15, 2018, and did not impact the District.

GASB 88 - "Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements", effective for periods beginning after June 15, 2018, and did not impact the District.

GASB Pending Accounting Standards

GASB has issued the following statements, which may impact the District's financial reporting requirements in the future:

- GASB 84 "Fiduciary Activities", effective for periods beginning after December 15, 2018.
- GASB 87 "Leases", effective for periods beginning after December 15, 2019.
- GASB 89 "Accounting for Interest Cost Incurred before the End of a Construction Period", effective for periods beginning after December 15, 2019.
- GASB 90 "Majority Equity Interests an amendment of GASB Statements No. 14 and No. 61", effective for periods beginning after December 15, 2018.
- GASB 91 "Conduit Debt Obligations", effective for periods beginning after December 15, 2020.

Note 2 - Cash and Investments

The following is a detail of cash and cash equivalents as of June 30, 2019 and 2018:

	 2019	_	2018
Cash on hand	\$ 9,103	\$	9,828
Deposits	1,005,483		920,038
State Treasurer's investment pool	9,587,529		7,958,334
California Asset Management Program	 9,585,387	_	8,987,500
Total cash and cash equivalents	\$ 20,187,502	\$_	17,875,700

As of June 30, 2019 and 2018, the District had the following investments:

Investment	Maturity	2019 Fair Value	2018 Fair Value
State Treasurer's investment pool California Asset	less than 12 months	\$ 9,587,529	\$ 7,958,334
Management Program Total cash equivalents	less than 12 months	9,585,387 \$ 19,172,916	8,987,500 \$ 16,945,834
U.S. Treasury bills Total Investments	6 months weighted average	\$ <u>19,304,648</u> \$ <u>19,304,648</u>	\$ <u>15,813,532</u> \$ <u>15,813,532</u>

Authorized deposits and investments of the District are governed by the California Government Code as well as policies set forth by the District's Board of Directors. Within the contents of these limitations, permissible instruments include FDIC-insured institutions' certificates of deposit and savings accounts, corporate medium-term notes, U.S. government agency/instrumentalities, money market instruments, money market mutual funds, mortgage backed securities, U.S. government bills, notes and bonds, and asset backed securities. Funds may also be invested in the local government investment pools.

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Note 2 - Cash and Investments (Continued)

The District is a voluntary participant in the California Asset Management Program (CAMP), an investment pool managed by Public Financial Management, Inc. CAMP was established under provisions of the California Joint Exercise of Powers Act. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by CAMP for the entire CAMP portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by CAMP, which are recorded on an amortized cost basis.

Interest Rate Risk. In accordance with its investment policy, the District manages its exposure to declines in fair values by limiting investment maturities to five years. Express authority is granted to invest in investments with term to maturity of greater than five years with a maximum term of ten years, provided the investments are in accordance with stated policy and total investments shall not exceed the amount of long term liabilities outstanding. Investments exceeding five years will be matched with a corresponding liability.

Credit Risk. State law and District policy limits investments in money market funds to the top ratings issued by nationally recognized statistical rating organizations. The District's investment in the California Asset Management Program was rated AAAm by Standard & Poor's Corporation. The District's investment in the California State Treasurer's investment pool was unrated. U.S. Treasury bills are exempt from rating disclosures.

Concentration of Credit Risk. The District manages the concentration of credit risk by limiting local government investment pools and money market funds to a maximum of 40% and 20%, respectively, of the District's total available investment capital as outlined in the District investment policy. Furthermore, no more than 10% of the District's available investment capital can be invested in a single money market fund.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. All deposits are entirely insured or collateralized. State law requires banks to secure the District's deposits by pledging government securities valued at 110% of the amount of the deposit as collateral. The District may waive the collateral requirement for deposits that are fully insured by the Federal Deposit Insurance Corporation (FDIC). Beginning on January 1, 2013, combined deposits are insured by the FDIC up to \$250,000. As of June 30, 2019, the District's bank balances were \$967,375, of which \$250,000 were insured and the remaining \$717,375 were collateralized with securities held by the pledging institution's trust department. As of June 30, 2018, the District's bank balances were \$785,183, of which \$250,000 were insured and the remaining \$535,183 were collateralized with securities held by the pledging institution's trust department.

Note 2 - Cash and Investments (Continued)

Fair Value Measurements

The District categorizes its fair value measurement within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are quoted market prices for similar assets in active markets, and Level 3 inputs are significant unobservable inputs.

The District has the following recurring fair value measurements as of June 30, 2019:

		Quoted Prices Level 1	Observable Inputs Level 2	1	Unobservable Inputs Level 3	Total
Fixed Income Securities:	·	_	_	_	_	_
Treasury Bills	\$		\$ 19,304,648	\$		\$ 19,304,648
Total Leveled Investments	\$	-	\$ 19,304,648	\$	-	19,304,648
LAIF*	_			=		9,587,529
California Asset Management Program*						9,585,387
Total Investment Portfolio						\$ 38,477,564

^{*}Not subject to fair value measurement.

The District has the following recurring fair value measurements as of June 30, 2018:

		Quoted Prices Level 1		Observable Inputs Level 2	1	Unobservable Inputs Level 3		Total
Fixed Income Securities:	_		•		-		•	
Treasury Bills	\$	-	\$	15,813,532	\$	-	\$	15,813,532
Total Leveled Investments	\$	-	\$	15,813,532	\$	-	•	15,813,532
LAIF*	_		•		-			7,958,334
California Asset Management Program*							_	8,987,500
Total Investment Portfolio							\$	32,759,366

^{*}Not subject to fair value measurement.

Note 3 - Accounts Receivable, Net

As of June 30, 2019 and 2018, the net balances were comprised of accounts receivable balances of \$8,121,054 and \$8,850,144, respectively, less the allowances for doubtful accounts of \$136,421 and \$165,642, respectively.

On the Statements of Revenues, Expenses and Changes in Net Position for the year ended June 30, 2019 and 2018, the balances of water sales, net of uncollectible accounts expense, were comprised of water sales revenues of \$47,811,749 and \$49,833,312, respectively, less uncollectible amounts of \$11,955 and \$31,211, respectively.

Note 4 - Capital Assets

Capital assets consist of the following at June 30, 2019:

		Beginning Balance	_	Additions	_	Retirements	_	Ending Balance
Capital assets not being depreciated:								
Land, franchises, and water rights	\$	6,001,127	\$	-	\$	(547,832)	\$	5,453,295
Construction in progress		2,397,003		4,697,846		(4,401,652)		2,693,197
Total capital assets not being depreciated		8,398,130		4,697,846	_	(4,949,484)		8,146,492
Capital assets being depreciated:								
Buildings, canals, pipelines, reservoirs and dams		165,119,809		5,734,643		(144,409)		170,710,043

Total capital assets, net	\$	89,924,833	\$	13,892,518	\$	(9,171,522)	\$	94,645,829

Note 5 - Accounts Payable

At June 30, 2019, the accounts payable of \$6,456,917 included \$3,825,719 for obligations to the San Luis Rey Indian Water Authority, \$1,294,428 for water purchases from the San Diego County Water Authority, and \$1,336,770 for obligations to other vendors. At June 30, 2018, the accounts payable of \$10,755,722 included \$7,704,320 for obligations to the San Luis Rey Indian Water Authority, \$1,539,415 for water purchases from the San Diego County Water Authority, and \$1,511,987 for obligations to other vendors.

Note 6 - Defined Benefit Pension Plan

A. General Information about the Pension Plan

Plan Description

The Plan is a cost-sharing, multiple-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). A full description of the pension plan regarding number of employees covered, benefit provisions, assumptions (for funding, but not account purposes), and membership information is listed in the June 30, 2018 Annual Actuarial Valuation Report. Details of the benefits provided can be obtained in Appendix B of the actuarial valuation report. The actuarial valuation report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications, at www.calpers.ca.gov.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after 5 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plan operates under the provisions of the California Public Employees' Retirement Law (PERL), the California Public Employees' Pension Reform Act of 2013 (PEPRA), and the regulations, procedures and policies adopted by the CalPERS Board of Administration. The Plan's authority to establish and amend the benefit terms are set by the PERL and PEPRA, and may be amended by the California state legislature and in some cases require approval by the CalPERS Board.

Note 6 - Defined Benefit Pension Plan (Continued)

A. General Information about the Pension Plan (Continued)

Benefits Provided (Continued)

The Plan's provisions and benefits in effect at June 30, 2019 are summarized as follows:

	Miscellaneous Plan				
	Tier 1	Tier 2	PEPRA		
Hire date	prior to 1/1/2012	from 1/1/12 to 12/31/12	on or after 1/1/13		
Benefit formula	3% @ 60	2% @ 60	2% @ 62		
Benefit vesting schedule	5 years service	5 years service	5 years service		
Benefit payments	monthly for life	monthly for life	monthly for life		
Retirement age	50 - 60	50 - 63	52 - 67		
Monthly benefits, as a % of eligible compensation	2.0% to 3.0%	1.092% - 2.418%	1.0% to 2.5%		
Required employee contribution rates	4.5%	7.0%	6.25%		
Required employer contribution rates					
Normal cost rate	17.869%	7.634%	6.842%		
Payment of unfunded liability	\$827,165	\$340	\$616		

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers are determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. District contribution rates may change if plan contracts are amended. Payments made by the employer to satisfy contribution requirements that are identified by the pension plan terms as plan member contributions requirements are classified as plan member contributions.

Note 6 - Defined Benefit Pension Plan (Continued)

B. Net Pension Liability

The District's net pension liabilities were measured as of June 30, 2018 and 2017 using an annual actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018, and June 30, 2016 rolled forward to June 30, 2017 using standard update procedures.

Actuarial Methods and Assumptions Used to Determine Total Pension Liability

For the measurement periods ended June 30, 2018 and June 30, 2017, the total pension liabilities were determined by actuarial valuations as of June 30, 2017 and 2016, with update procedures used to roll forward the total pension liabilities. The total pension liabilities for the Plan were based on the following actuarial methods and assumptions:

Valuation Dates June 30, 2017 and 2016
Measurement Dates June 30, 2018 and 2017
Actuarial Cost Method Entry Age Normal
Asset Valuation Method Market Value of Assets

Actuarial Assumptions:

Discount Rate 7.15%
Inflation 2.50%
Salary Increases (1)
Mortality Rate Table (2)
Post Retirement Benefit Increase (3)

- (1) Annual increases vary by category, entry age, and duration of service.
- (2) The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the December 2017 experience study report (based on CalPERS demographic data from 1997 to 2015) that can be found on the CalPERS website.
- $(3) \ Contract\ COLA\ up\ to\ 2.00\%\ until\ Purchasing\ Power\ Protection\ Allowance\ Floor\ on\ Puchasing\ Power\ applies,\ 2.50\%\ thereafter.$

Note 6 - Defined Benefit Pension Plan (Continued)

B. Net Pension Liability (Continued)

Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments was determined using a buildingblock method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

The expected real rates of return by asset class at measurement date June 30, 2018 are as follows:

Assumed Asset Allocation	Real Return Years 1 - 10 (b)	Real Return Years 11+ (c)
50.00%	4.80%	5.98%
28.00%	1.00%	2.62%
-	0.77%	1.81%
8.00%	6.30%	7.23%
13.00%	3.75%	4.93%
1.00%	-	(0.92%)
100.00%		
	Asset Allocation 50.00% 28.00% 8.00% 13.00% 1.00%	Asset Real Return Allocation Years 1 - 10 (b) 50.00% 4.80% 28.00% 1.00% - 0.77% 8.00% 6.30% 13.00% 3.75% 1.00% -

⁽a) In the CalPERS CAFR, Fixed Income is included in Global Debt Securities; Liquidity is included in Short-term Investments; Inflation Assets are included in both Global Equity Securities and Global Debt Securities

⁽b) An expected inflation of 2.0% used for this period

⁽c) An expected inflation of 2.92% used for this period

Note 6 - Defined Benefit Pension Plan (Continued)

B. Net Pension Liability (Continued)

Long-term Expected Rate of Return (Continued)

The expected real rates of return by asset class at measurement date June 30, 2017 were as follows:

Asset Class (a)	New Strategic Allocation	Real Return Years 1 - 10 (a)	Real Return Years 11+ (b)
Global Equity	47.00%	4.90%	5.38%
Global Fixed Income	19.00%	0.80%	2.27%
Inflation Sensitive	6.00%	0.60%	1.39%
Private Equity	12.00%	6.60%	6.63%
Real Estate	11.00%	2.80%	5.21%
Infrastructure and Forestland	3.00%	3.90%	5.36%
Liquidity	2.00%	(0.40%)	(0.90%)
Total	100.00%		

⁽a) An expected inflation of 2.5% used for this period

Discount Rate

The discount rate used to measure the total pension liability was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

⁽b) An expected inflation of 3.0% used for this period

Note 6 - Defined Benefit Pension Plan (Continued)

C. Proportionate Share of Net Pension Liability

The following table shows the Plan's proportionate share of the net pension liability over the measurement period.

Miscellaneous Plan:

		Increase (Decrease)						
	Plai	Plan Total Pension		Plan Fiduciary Net		Plan Net Pension		
	Liability		Position		Position L			
	(a)		(b)			(c) = (a) - (b)		
Balance at: 6/30/2017 (VD)	\$	93,700,006	\$	78,077,338	\$	15,622,668		
Balance at: 6/30/2018 (MD)	\$	95,958,641	\$	81,167,541	\$	14,791,100		
Net Changes during 2017-18	\$	2,258,635	\$	3,090,203	\$	(831,568)		

Valuation Date (VD), Measurement Date (MD).

The District's proportionate share of the net pension liabilities were based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating employers, actuarially determined.

The changes in the District's proportionate share of the collective net pension liabilities were as follows:

	Miscellaneous
Proportionate Share - June 30, 2017	0.39631%
Proportionate Share - June 30, 2018	0.39247%
Change - Increase (Decrease)	(0.00384%)
	Miscellaneous
Proportionate Share - June 30, 2016	Miscellaneous 0.37210%
Proportionate Share - June 30, 2016 Proportionate Share - June 30, 2017	
•	0.37210%

Note 6 - Defined Benefit Pension Plan (Continued)

C. Proportionate Share of Net Pension Liability

<u>Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate</u>

The following presents the District's proportionate share of the net pension liability of the Plan as of the June 30, 2018 and 2017 measurement dates, calculated using the discount rate of 7.15%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower or 1 percentage-point higher than the current rate:

	Discount Rate - 1% (6.15%)	Current Discount Rate (7.15%)	Discount Rate + 1% (8.15%)		
Miscellaneous Plan's Net					
Pension Liability - 2018	\$ 27,771,539	\$ 14,791,100	\$ 4,075,962		

	Discount Rate - 1% (6.15%)	Current Discount Rate (7.15%)	Discount Rate + 1% (8.15%)		
Miscellaneous Plan's Net Pension Liability - 2017	\$ 28,510,812	\$ 15,622,668	\$ 4,948,474		

Pension Plan Fiduciary Net Position

Detailed information about each pension plan's fiduciary net position is available in the separately issued CalPERS financial reports.

Note 6 - Defined Benefit Pension Plan (Continued)

D. Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions

For the fiscal years ending June 30, 2019 and June 30, 2018, the District incurred a pension expense of \$2,421,809 and \$3,237,444, respectively for the Plan.

As of June 30, 2019, the District has deferred outflows and deferred inflows of resources related to pensions as follows:

		Deferred Outflows of Resources	Deferred Inflows of Resources		
Pension contributions subsequent to measurement date	\$	2,007,718	\$	-	
Differences between expected and actual experience		567,508		(193,120)	
Changes in assumptions		1,686,230		(413,262)	
Net difference between projected and actual earnings on					
pension plan investments		73,123		-	
Changes in employer's proportion and differences between					
the employer's contributions and the employer's					
proportionate share of contributions		591,786		(302,288)	
Total	\$	4,926,365	\$	(908,670)	

\$2,007,718 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Year Ended June 30:	Deferred ows/(Inflows) esources, Net
2020	\$ 1,500,900
2021	916,053
2022	(273,938)
2023	(133,038)
2024	-
Thereafter	-
	\$ 2,009,977

Note 6 - Defined Benefit Pension Plan (Continued)

D. Pension Expense and Deferred Outflows and Deferred Inflows of Resources Related to Pensions (Continued)

As of June 30, 2018, the District had deferred outflows and deferred inflows of resources related to pensions as follows:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Pension contributions subsequent to measurement date	\$	1,862,822	\$	-
Differences between expected and actual experience		31,512	(451,468)
Changes in assumptions		3,909,899	(298,133)
Net difference between projected and actual earnings on				
pension plan investments		884,258		-
Changes in employer's proportion and differences between				
the employer's contributions and the employer's				
proportionate share of contributions		15,708	(691,244)
Total	\$	6,704,199	\$ (1,	440,845)

\$1,862,822 reported as deferred outflows of resources related to contributions subsequent to the measurement date was recognized as a reduction of the net pension liability in the year ending June 30, 2019. Other amounts reported as deferred outflows and deferred inflows of resources related to pensions were recognized in future pension expense as follows:

		Deferred		
	Outfl	Outflows/(Inflows)		
Year Ended June 30:	of R	of Resources, Net		
2019	\$	568,488		
2020		2,121,062		
2021		1,235,983		
2022		(525,001)		
2023		-		
Thereafter		-		
	\$	3,400,532		

E. Payable to the Pension Plan

At June 30, 2019 and 2018, the District had no outstanding amount of contributions to the pension plan required for the years ended June 30, 2019 and 2018.

Note 7 – OPEB Plan

Plan Description

The District provides post-retirement medical benefits to retirees through the Association of California Water Agencies (ACWA) health program and managed through the California Employers' Retiree Benefit Trust (CERBT).

The plan is an agent multiple-employer defined benefit healthcare plan that provides retiree medical benefits to eligible retirees and spouses. The plan pays 100% of the cost (premiums) for benefits. To be eligible for retiree health benefits, an employee must retire under CalPERS on or after age 50 with at least 15 years (10 years for at-will employees) of service with the District. Coverage is available to the retiree and the spouse for a combined maximum of 15 years (20 years for at-will employees). The maximum coverage period for the retiree is 10 years and the spouse can be covered for up to the same number of years as the retiree subject to the combined maximum. Employees hired on or after January 1, 2012 are not eligible to continue health benefits at retirement. A separate financial report is not prepared for the plan.

Employees Covered

As of the June 30, 2017 actuarial valuation, the following current and former employees were covered by the benefit terms under the plan:

Inactive employees or beneficiaries currently receiving benefits	28
Active employees	_66
Total	94

Contributions

The Plan and its contribution requirements are established by District policy and may be amended by the Board of Directors. The annual contribution is based on the actuarially determined contribution. For the fiscal years ended June 30, 2019 and 2018, the District's contributions were \$101,590 and \$94,656, respectively in the form of estimated implied subsidy.

Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2018 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2017 rolled forward to June 30, 2018 using standard update procedures. A summary of the principal assumptions and methods used to determine the total OPEB liability is shown below.

Note 7 – OPEB Plan (Continued)

Actuarial Assumptions

The total OPEB liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	June 30, 2017
Measurement Date	June 30, 2018
Actuarial Cost Method	Entry-Age Normal Cost Method
Actuarial Assumptions:	
Discount Rate	7.00%
Inflation	2.75%
Projected Salary Increase	3.00% per annum, in aggregate
Expected long term investment rate of return	7.00%
Healthcare Cost Trend Rates	6.0% HMO/6.5% PPO, decreasing to 5%
Pre-retirement Turnover	Derived from termination rates under the CalPERS pension plan
Mortality	Derived from CalPERS pension plan updated to reflect most recent experience study

The actuarial assumptions used in the June 30, 2017 valuation were based on a standard set of assumptions the actuary has used for similar valuations, modified as appropriate for the District.

The long-term expected rate of return was determined using a building-block method in which bestestimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of June 30, 2018 are summarized in the following table:

	New Strategic	Long-Term Expected Real
Asset Class	Allocation	Rate of Return
CERBT		
Global Equity	57.00%	5.50%
Global Debt Securities	27.00%	2.35%
Inflation Assets	5.00%	1.50%
Commodities	3.00%	1.75%
REITs	8.00%	3.65%
Total	100.00%	

Note 7 – OPEB Plan (Continued)

Actuarial Assumptions (Continued)

Best estimates of arithmetic real rates of return for each major asset class included in the OPEB plan's target asset allocation as of June 30, 2017 are summarized in the following table:

	New	Long-Term
	Strategic	Expected Real
Asset Class	Allocation	Rate of Return
CERBT		
US Equity	30.00%	4.85%
International Equity	27.00%	5.85%
REITs	8.00%	3.65%
US Fixed Income	27.00%	2.35%
Commodities	3.00%	1.75%
Inflation Assets	5.00%	1.50%
Total	100.00%	

Discount Rate

The discount rate used to measure the total OPEB liability was 7.00%. The projection of cash flows used to determine the discount rate assumed that District's contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees and beneficiaries. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Note 7 – OPEB Plan (Continued)

Changes in the Net OPEB Liability

The changes in the net OPEB liability during measurement period June 30, 2018 are as follows:

	Increase (Decrease)		
	Total	Plan	Net
	OPEB	Fiduciary	OPEB
	Liability	Net Position	Liability
Balance at June 30, 2017 (Measurement Date)	\$ 6,123,635	\$ 5,576,214	\$ 547,421
Changes in the Year:			
Service cost	143,685	-	143,685
Interest on the total OPEB liability	420,585	-	420,585
Contribution - employer	-	94,656	(94,656)
Net investment income	_	439,596	(439,596)
Administrative expenses	_	(10,309)	10,309
Benefit payments	(517,935)	(517,935)	-
Net Changes	46,335	6,008	40,327
Balance at June 30, 2018 (Measurement Date)	\$ 6,169,970	\$ 5,582,222	\$ 587,748

The changes in the net OPEB liability during measurement period June 30, 2017 were as follows:

	Increase (Decrease)		
	Total	Plan	Net
	OPEB	Fiduciary	OPEB
	Liability	Net Position	Liability
Polongo et June 20, 2016 (Maggurament Data)	\$ 6,072,491	\$ 5,045,820	\$1,026,671
Balance at June 30, 2016 (Measurement Date) Changes in the Year:	\$ 0,072,491	\$ 3,043,620	\$1,020,071

	decreasing to	decreasing to	decreasing to
	4.00% HMO/	5.00% HMO/	6.00% HMO/
	4.00% PPO)	5.00% PPO)	6.00% PPO)
Net OPEB Liability - 2017	\$ 70,159	\$ 547,421	\$ 1,090,244

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the year ended June 30, 2019 and 2018, the District recognized OPEB expense of \$150,526 and \$164,851, respectively.

At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred	Deferred
	Outflows	Inflows
	of Resources	of Resources
OPEB contributions subsequent to measurement date	\$ 101,590	\$ -
Differences between projected and actual earnings		159,543
Total	\$ 101,590	\$ 159,543

The net difference between projected and actual earnings on plan investments is amortized over a five-year period.

\$101,590 reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

Year Ending June 30:	Amount
2020	\$ (48,884)
2021	(48,884)
2022	(48,886)
2023	(12,889)
2024	-
Thereafter	-

Note 7 – OPEB Plan (Continued)

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB (Continued)

At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred	Deferred
	Outflows	Inflows
	of Resources	of Resources
OPEB contributions subsequent to measurement date	\$ 94,646	\$ -
Differences between projected and actual earnings		143,990
Total	\$ 94,646	\$ 143,990

\$94,646 reported as deferred outflows of resources related to contributions subsequent to the measurement date was recognized as a reduction of the net OPEB liability in the year ending June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized as OPEB expense as follows:

Year Ending June 30:	Amount
2019	\$ (35,997)
2020	(35,997)

Payable to the OPEB Plan

At June 30, 2019 and 2018, the District had no outstanding amount of contributions to the OPEB plan required for the years ended June 30, 2019 and 2018.

Note 8 - Commitments and Contingencies

Commitments

On May 17, 2017 the District settled its long-standing water rights lawsuit with various Indian bands. Per the terms of the Settlement Agreement, the District and the City of Escondido are responsible for all costs associated with maintaining and operating the local water system, including the cost of undergrounding of a canal on the San Pasqual Indian Reservation (currently estimated to cost \$30 million). The cost of the undergrounding project (Project) will be divided evenly between the District and the City of Escondido. Per the terms of the Settlement Agreement, the Project must be completed no later than May 17, 2023.

The District has been named as defendant in various other legal actions. In the opinion of management and legal counsel, it is too early to determine the outcome and effect on the District's financial position.

Note 10 – Subsequent Events

In preparing these financial statements, the District has evaluated events and transactions for potential recognition or disclosure through December 3, 2019, the date the financial statements were available to be issued.

Schedule of the District's Proportionate Share of the Plan's Net Pension Liability and Related Ratios as of the Measurement Date Last 10 Fiscal Years*

	Measurement Date									
		6/30/2018		6/30/2017		6/30/2016		6/30/2015		6/30/2014*
Plan's Proportion of the Net Pension Liability ¹	-	0.15349%	· •	0.15753%	•	0.14938%	•	0.22908%	-	0.21738%
Plan's Proportionate Share of the										
Net Pension Liability	\$	14,791,100	\$	15,622,668	\$	12,926,266	\$	15,723,785	\$	13,526,753
Plan's Covered Payroll ²	\$	7,982,625	\$	7,576,845	\$	7,601,853	\$	7,473,687	\$	7,494,718
Plan's Proportionate Share of the Net Pension Liability as a % of its Covered Payroll		185.29%		206.19%		170.04%		210.39%		180.48%
Plan's Proportionate Share of the Fiduciary Net Position as a % of the Plan's Total Pension Liability		75.26%		73.31%		74.06%		80.66%		83.03%
Plan's Proportionate Share of Aggregate Employer Contributions ³	\$	3,091,757	\$	2,954,163	\$	2,678,414	\$	2,268,191	\$	1,789,539

¹ Proportion of the net pension liability represents the plan's proportion of PERF C, which includes both the Miscellaneous and Safety Risk Pools excluding the 1959 Survivors Risk Pool.

² Covered Payroll represented above is based on the total payroll of employees that are provided pensions through the pension plan in accordance with GASB 68.

³ The plan's proportionate share of aggregate contributions may not match the actual contributions made by the employer during the Measurement Period. The plan's proportionate share of aggregate contributions is based on the plan's proportion of fiduciary net positions, as well as any additional side fund (or unfunded liability) contributions made by the employer during the measurement period.

^{*} Measurement period 2013-14 (fiscal year 2015) was the first year of implementation.

Single and agent employers Entry age

Amortization method Level percentage of payroll, closed

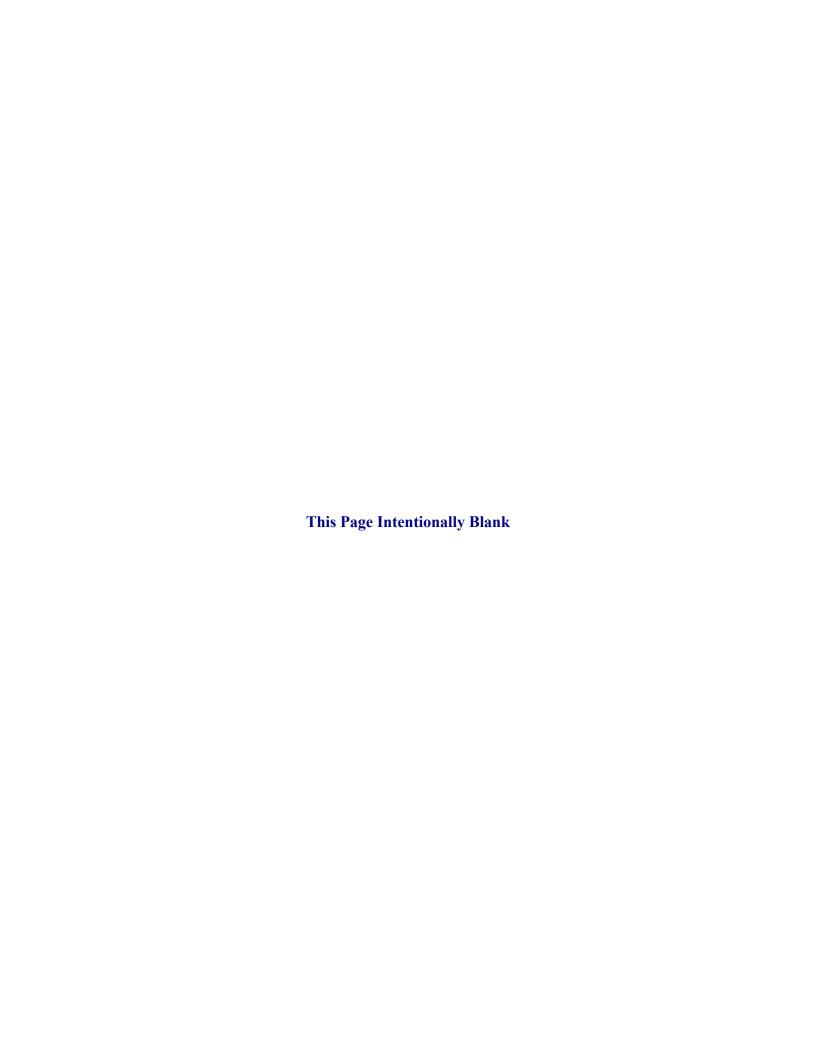

Asset valuation method Market Value Inflation 2.75% Salary increases 3.00% Investment rate of return 7.00%

Mortality CalPers pension plan

^{*} Fiscal year 2018 was the first year of implementation.

Statistical Section

STATISTICAL SECTION

This part of the Vista Irrigation District's (the "District") comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

CONTENTS	PAGE
Financial Trends	51
These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	
Revenue Capacity	53
These schedules contain information to help the reader access the District's most significant local revenue source.	
Demographic and Economic Information	57
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating Information	60
These schedules contain service and infrastructure data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Board of Directors Vista Irrigation District Vista, California

We have audited the financial statements of Vista Irrigation District (the District) for the year ended June 30, 2019. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards and Government Auditing Standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 3, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Matters

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the District are described in Note 1 to the financial statements. No new accounting policies were adopted and the application of other existing policies was not changed during the year ended June 30, 2019. We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

The most sensitive estimates affecting the District's financial statements were:

- a. When available, management's estimate of the fair value of investments is based on quoted prices in active markets. When quoted prices in active markets are not available, fair values are based on evaluated prices received by the District's from third party service providers.
- b. Management's estimate of useful lives of depreciable capital assets is based on the length of time it is believed that those assets will provide some economic benefit in the future.

Significant Audit Matters (Continued)

Qualitative Aspects of Accounting Practices (Continued)

- c. The annual required contributions, pension expense, net pension liability and corresponding deferred outflows of resources and deferred inflows of resources for the District's public defined benefit plans with CalPERS are based on actuarial valuations provided by CalPERS.
- d. The actuarially determined contribution, Other Postemployment Benefit (OPEB) expense, net OPEB Liability, and corresponding deferred outflows of resources and deferred inflows of resources for the District's OPEB plan are based on actuarial valuations by an independent third party actuary.
- e. Management's estimate of the allowance for doubtful accounts is based on historical water revenues, historical loss levels, and an analysis of the collectability of individual accounts.

We evaluated the key factors and assumptions used to develop these estimates in determining that they were reasonable in relation to the financial statements taken as a whole.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements are:

- a. The disclosure of the net pension liability in Note 6.
- b. The disclosure of the Other Post-Employment Benefit Plan in Note 7.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. As a result of our audit-related test work, we proposed no corrections to the financial statements.

Significant Audit Matters (Continued)

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 3, 2019.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to Management's Discussion and Analysis, the Schedule of the District's Proportionate Share of the Plan's Net Pension Liability and Related Ratios as of the Measurement Date, the Schedule of Contributions – Pension Plans, Schedule of Changes in the Net OPEB Liability and Related Ratios, and the Schedule of Contributions – OPEB, which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were not engaged to report on the introductory and statistical sections, which accompany the financial statements but are not RSI. Such information has not been subjected to the auditing

procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Restriction on Use

This information is intended solely for the use of the Board of Directors and management of the District and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors of the Vista Irrigation District Vista, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Vista Irrigation District (the District) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 3, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may not have been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted a certain other matter that we have reported to the Board of Directors in a separate letter dated December 3, 2019.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Carlsbad, California

White Nelson Diehl Grans UP

December 3, 2019

Board of Directors of the Vista Irrigation District Vista, California

In planning and performing our audit of the financial statements of Vista Irrigation District (the District) as of and for the year ended June 30, 2019 in accordance with auditing standards generally accepted in the United States of America, we considered the District's internal control over financial reporting (internal control) as a basis for designing our auditing procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control was for the limited purpose described in the first paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses. Given these limitations during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

As discussed below, we identified a certain matter involving the internal control and other operational matters that are presented for your consideration. This letter does not affect our report dated December 3, 2019 on the financial statements of the District. Our comment and recommendation are intended to improve the internal control or result in other operating efficiencies.

Our comment with our recommendation for improvement is summarized as follows:

Manual Follow-Up Requests for Banking Information Changes

Auditors' Comment and Recommendation

During our entrance meeting, WNDE discussed the recent increase in fraudulent activity in the marketplace, as it pertains to fictitious vendors notifying entities of bank information changes for electronic payments. We recommend the District implement a system where any banking information change requests (ACH and Wire Transfers) be followed up by a District employee before any changes and payment is processed to decrease the risk of fraudulent ACH and wire transfer payments to fictitious vendors.

Management's response

For Payroll related bank information changes, the District requires information be manually submitted for processing with the exception of Lake Henshaw employees. Those employees either mail or email their request to update banking information, and those requests are followed-up with a verification phone call.

For Accounts Payable ACH and Wire transfer related bank information changes, the District has implemented a new procedure whereby staff will do a follow-up call to vendors using only prior contact information to ensure the change is valid.

District's Response to the Finding

White Nelson Diehl Tuans UP

The District's response to the finding identified in our audit is described above. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

This communication is intended solely for the information and use of management, the Board of Directors, and others within the District and is not intended to be, and should not be, used by anyone other than these specified parties.

STAFF REPORT

Agenda Item: 8

Board Meeting Date: January 22, 2020
Prepared By: Shallako Goodrick
Reviewed By: Marlene Kelleher
Approved By: Brett Hodgkiss

SUBJECT: FINANCIAL REPORT FOR THE YEAR ENDED JUNE 30, 2019

RECOMMENDATION: Informational report concerning the financial results of the District.

PRIOR BOARD ACTION: None.

FISCAL IMPACT: None.

<u>SUMMARY</u>: Attached for review by the Board of Directors is the Financial Report for the Year Ended June 30, 2019. This report includes the following items:

FINANCIAL STATEMENTS

• Lake Henshaw Operations- Statements of Revenues and Expenses

SPECIAL REPORTS

- Water Statistics Budget Comparison
- Revenue and Expense Budget Comparison
- Capital Outlay Comparison
- Property Revenues
- Legal Expenses

The Lake Henshaw financial statements reflect revenues and expenses directly related to operating Lake Henshaw and the surrounding Warner Ranch. Lake Henshaw revenues were \$3,366,594, which included an estimated value of \$2,697,421 in local water that was provided to the District; expenses were \$1,766,259, which included \$146,518 for legal and consulting fees related to the water rights litigation. Lake Henshaw operations resulted in a \$1,600,335 net income for Fiscal Year 2019.

The first three special reports listed above compare the actual results for the year ended June 30, 2019 with the budgeted amounts approved by the Board.

Overall, the District experienced a \$5.1 million operating gain this fiscal year, which is a decrease from the \$5.3 million operating gain for the prior fiscal year. Water purchases from the San Diego County Water Authority totaled \$21.3 million.

<u>DETAILED REPORT</u>: See attached Financial Report for the Year Ended June 30, 2019.

STAFF REPORT

Board Meeting Date: January 22, 2020

Prepared By: Don Smith Approved By: Brett Hodgkiss

SUBJECT: STUDY OF SOUTHWESTERN WILLOW FLYCATCHER ON DISTRICT LAND

<u>RECOMMENDATION</u>: Receive results of field surveys for southwestern willow flycatcher on District land as performed by the United States Geological Survey (USGS) under contract to the San Diego Association of Governments (SANDAG).

<u>PRIOR BOARD ACTION</u>: On June 3, 2015, the Board authorized the USGS to conduct field surveys, nest monitoring and color banding on District lands between mid-May and August annually from 2015 through 2019.

FISCAL IMPACT: None.

<u>SUMMARY</u>: The USGS has completed five years of field surveys for southwestern willow flycatcher at selected areas throughout San Diego County, including on lands owned by the District. While a report summarizing the findings of this study is pending, preliminary results suggest that riparian areas along the San Luis Rey River and at Lake Henshaw are significant habitat for this species. In particular, recent surveys have established the presence of occupied habitat along the shores of Lake Henshaw.

Southwestern Willow Flycatcher Territories On District Land*

	Year				
Location	2015	2016	2017	2018	2019
Below Dam	7	8	3	3	2
Lake Henshaw	n/s	n/s	n/s	16	24
West Fork	n/s	n/s	n/s	0 (6 transients)	n/s

^{*} Data is taken from provisional, unpublished findings. n/s – not surveyed

Barbara Kus, Research Ecologist for the USGS will present a preliminary summary of the findings of field surveys conducted on District lands both above and below Lake Henshaw for the five years of the SANDAG study.

<u>DETAILED REPORT</u>: The southwestern willow flycatcher is small migratory songbird dependent on riparian habitat for breeding. It has been listed as endangered since 1995 under the Endangered Species Act (ESA). The USGS has received grant funding from SANDAG to study the southwestern willow flycatcher in San Diego County between 2015 and 2019. Much of the San Luis Rey River corridor was designated by the US Fish and Wildlife Service as critical habitat for the southwestern willow flycatcher in 2013; in particular, the upper San Luis Rey River is believed to contain the largest population of southwestern willow flycatcher in California. The District owns land below Henshaw Dam including about one linear mile of riparian habitat.

Status of Southwestern Willow Flycatchers on Vista Irrigation District Lands

Barbara Kus Scarlett Howell

Western Ecological Research Center San Diego Field Station

Presented to:
Vista Irrigation District Board of Directors

January 22, 2020

Southwestern Willow Flycatcher

- Neotropical migratory species
 - winters in central and south America
 - breeds in southwestern U.S.
 - breeding season mid-May August
- Riparian obligate breeder
- Federally endangered, listed in 1995
 - habitat loss
 - cowbird parasitism

Southwestern Willow Flycatcher

California population at time of listing (1995):

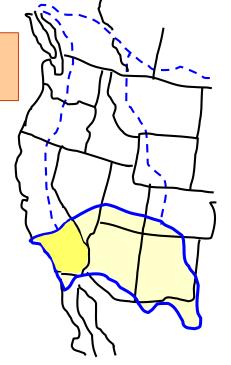

70 territories

FWS Recovery goal for San Diego Co. (2002):

450 territories

Population in steep decline

USGS Research Goals

5-year study (2015-2019), funded by Sandag

Study Components:

Surveys County-wide surveys of historically occupied and

other suitable habitat to determine SWFL

abundance and distribution

Monitoring At USLR, to determine nest success, productivity,

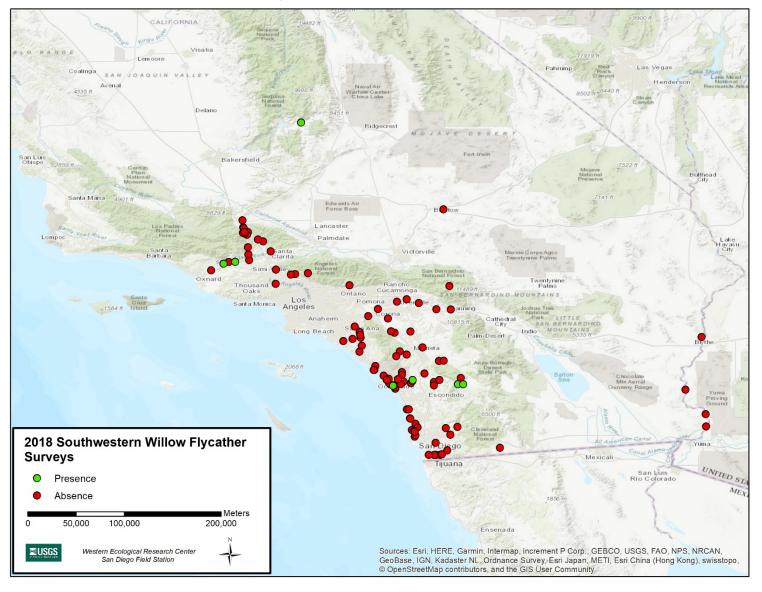

survivorship

Compare USLR to coastal populations to identify reasons for declines, and prioritize sites and actions for SWFL conservation

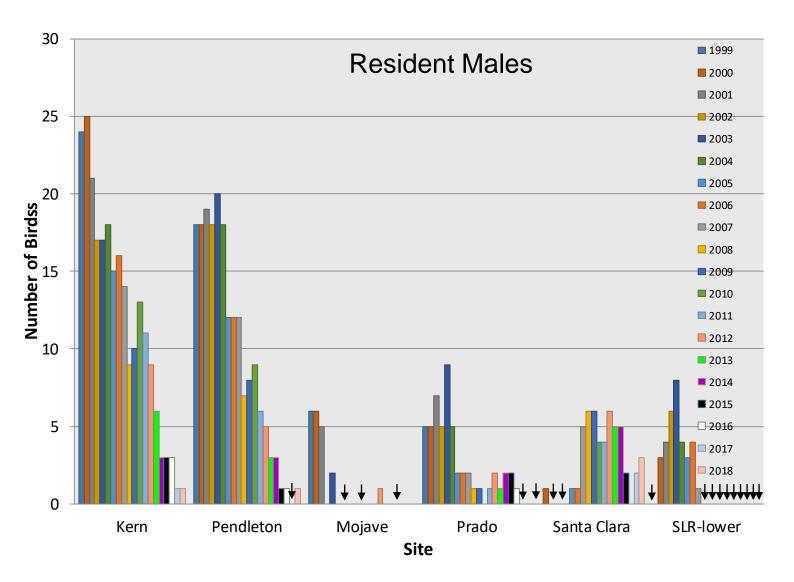

SWFL Surveys and Distribution 2018

SWFL Population Size: 1999-2018

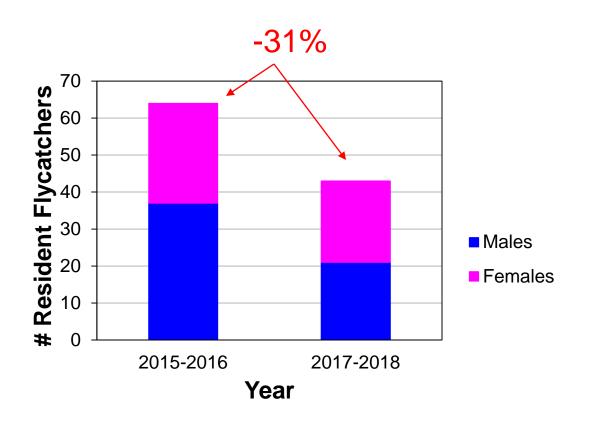

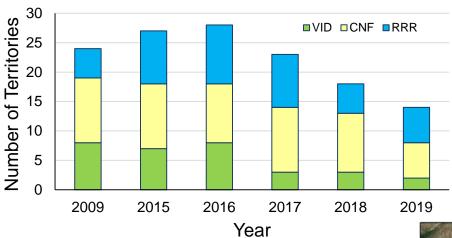

SWFL Population Size: 2015-2018

Sites surveyed in 2015 or 2016 AND 2017 or 2018 (N = 81):

SWFL Population Size on USLR

Lake Henshaw

Lake Henshaw

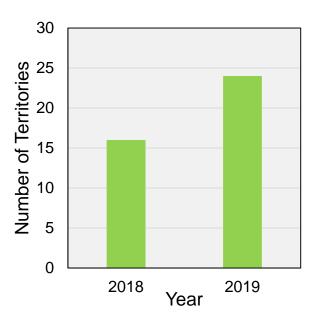

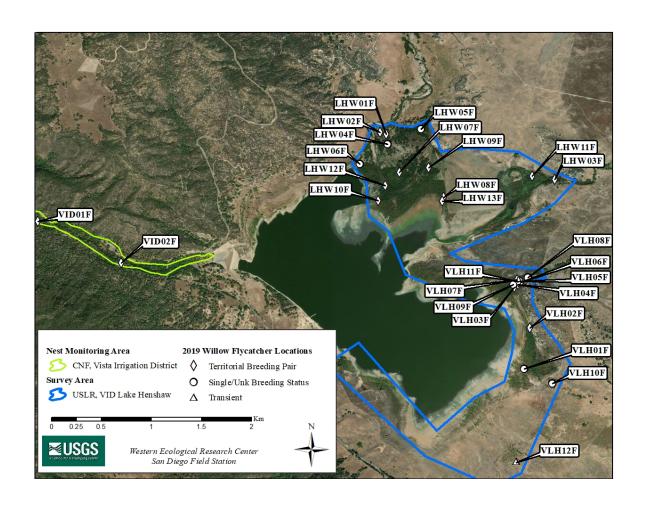

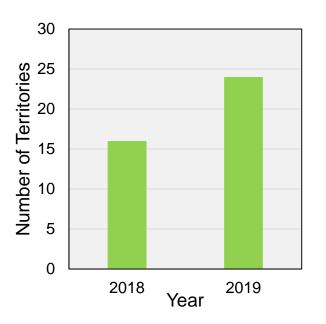

SWFL Territories on VID Lands 2019

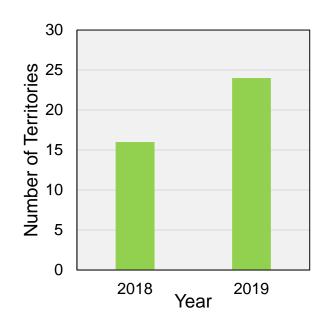

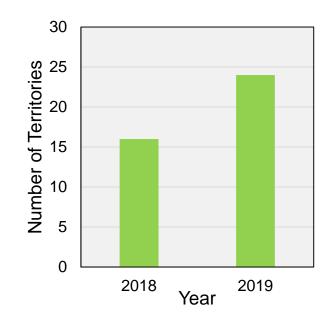

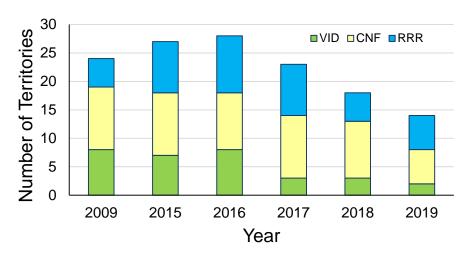

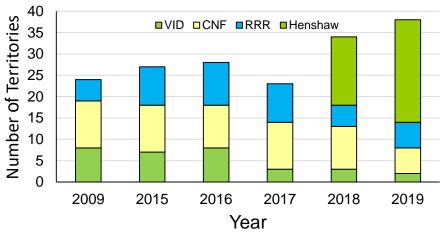

SWFL Population Size on USLR

Nest Monitoring and Productivity

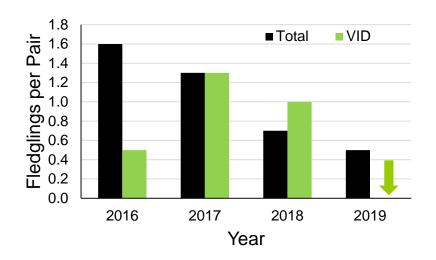

- Locate and monitor nests:
 - Clutch size, hatch rate, fledge rate, parasitism rate, nest fate, nest site characteristics

Nest Monitoring and Productivity

- Locate and monitor nests:
 - Clutch size, hatch rate, fledge rate, parasitism rate, nest fate, nest site characteristics

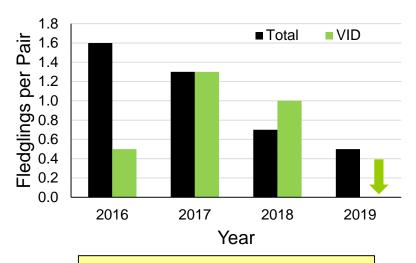

Nest Monitoring and Productivity

- Locate and monitor nests:
 - Clutch size, hatch rate, fledge rate, parasitism rate, nest fate, nest site characteristics

MCB Camp Pendleton 2001-2018: average = 1.9 fledglings per pair

Summary

- Largest population of SWFL in southern California occurs on upper San Luis Rey River
- VID lands support approximately 56-68% of this population
- VID population appears to be buffered against steep declines in SWFL populations regionally, although low productivity is a concern
- Demonstrates compatibility between water management and flycatcher conservation

STAFF REPORT

SUBJECT: RESOLUTION HONORING PAST PRESIDENT JO MACKENZIE

<u>RECOMMENDATION</u>: Adopt Resolution No. 20-XX honoring the District's 2019 past president, Jo MacKenzie.

PRIOR BOARD ACTION: None.

FISCAL IMPACT: None.

<u>SUMMARY</u>: Director MacKenzie has served as Director of Division 5 since 1992. She recently completed her term as Board President for 2019 during which time the District initiated work on a Water Supply Planning Study to determine the future of the Vista Flume and embarked on several significant capital projects including rehabilitation of the Buena Creek HB Reservoir and design of the Edgehill (E) Reservoir Replacement and Pump Station Project. The District also disposed of surplus properties located on Pipeline Drive and on Warmlands Avenue in Vista and property in Poway.

Under Director MacKenzie's leadership, the District received a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association for twelfth consecutive year and became one of only 12 special districts in California to receive District of Distinction Platinum Level recognition from the Special District Leadership Foundation. The District was also a recipient of the President's Special Recognition Award from the Association of California Water Agencies Joint Powers Insurance Authority for achieving loss ratios of 20 percent or less in the Liability and Workers' Compensation programs.

Director MacKenzie's dedication was demonstrated through her conscientious service on the California Special Districts Association (CSDA) Board of Directors on both the State and local levels. She also served as Chair of the San Diego Local Agency Formation Commission (LAFCO) and on the Board of Directors for California LAFCO (CALAFCO). Director MacKenzie tirelessly serves on committees for CSDA, ACWA and CALAFCO and as President of the CSDA Finance Corporation and Treasurer of the Special District Leadership Foundation. She is also a member of the committee to review and recommend revisions related to the rules of LAFCO protest votes in the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000.

In recognition of Director MacKenzie's accomplishments and outstanding efforts for the benefit of all the people of the Vista Irrigation District during her tenure as President, the attached resolution is presented for the Board's consideration.

ATTACHMENT: Draft resolution

RESOLUTION NO. 20-xx

RESOLUTION OF THE BOARD OF DIRECTORS OF THE VISTA IRRIGATION DISTRICT HONORING PAST PRESIDENTJO MACKENZIE

WHEREAS, Jo MacKenzie has served as Director of Division 5 since 1992; and

WHEREAS, she has conscientiously and ably served as President of the Board for 2019; and

WHEREAS, during her term as President, the District initiated work on a Water Supply Planning Study to determine the future of the Vista Flume and embarked on several significant capital projects including rehabilitation of the Buena Creek HB Reservoir and design of the Edgehill (E) Reservoir Replacement and Pump Station Project. The District also disposed of surplus properties located on Pipeline Drive and on Warmlands Avenue in Vista and property in Poway; and

WHEREAS, under Director MacKenzie's leadership, the District received a Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association for twelfth consecutive year and became one of only 12 special districts in California to receive District of Distinction Platinum Level recognition from the Special District Leadership Foundation. The District was also a recipient of the President's Special Recognition Award from the Association of California Water Agencies Joint Powers Insurance Authority for achieving loss ratios of 20 percent or less in the Liability and Workers' Compensation programs; and

WHEREAS, Director MacKenzie's dedication was demonstrated through her conscientious service on the California Special Districts Association (CSDA) Board of Directors on both the State and local levels. She also served as Chair of the San Diego Local Agency Formation Commission (LAFCO) and on the Board of Directors for California LAFCO (CALAFCO). Director MacKenzie tirelessly serves on committees for CSDA, ACWA and CALAFCO and as President of the CSDA Finance Corporation and Treasurer of the Special District Leadership Foundation. She is also a member of the committee to review and recommend revisions related to the rules of LAFCO protest votes in the Cortese-Knox-Hertzberg Local Government Reorganization Act of 2000.

NOW, THEREFORE, BE IT RESOLVED that the Board of Directors and staff of the Vista Irrigation District does hereby express to Jo MacKenzie appreciation for her accomplishments and outstanding efforts for the benefit of all the people of the Vista Irrigation District during her tenure as President.

PASSED AND ADOPTED by the following roll call vote of the Board of Directors for the Vista Irrigation District this 22^{nd} day of January 2020.
