**PROPOSALS DUE:**

**Monday, June 8, 2020, by 4:00 pm**

## **Request for Proposal**

Vista Irrigation District (“District”) will be accepting proposals from qualified contractors for as-needed vacuum excavation services within the District’s service area to support maintenance activities and capital improvement projects during the 2021 fiscal year with the option to extend the contract for an additional two (2), one-year terms. Over the last three fiscal years, the District’s average expense for vacuum excavation services has been approximately \$80,000.

### **BACKGROUND:**

Vista Irrigation District was organized in September 1923. Its mission is to provide a safe and reliable supply of water to its customers. The District currently serves 28,700 accounts with a population of 137,000 people.

A five-member Board of Directors (“Board”) governs the District. The General Manager and administrative staff implement the policies approved by the Board of Directors and handle the District’s day-to-day operations.

The service area lies within the northwestern quadrant of San Diego County, encompassing approximately 21,200 acres in its service area. Historically, the District has received 30% of its water supply from Lake Henshaw, which, along with the surrounding 43,000-acre Warner Ranch is owned and operated by the District. The remaining 70% of the District’s supply comes from purchased water sources, including the Colorado River, desalinated seawater and the Sacramento River/San Joaquin River Delta in Northern California. These sources are conveyed to the District via aqueducts owned and operated by water wholesalers, the Metropolitan Water District of Southern California and the San Diego County Water Authority.

### **OBJECTIVES:**

The District needs a qualified and experienced company to provide potholing and vacuum excavation services to support maintenance activities and capital improvement projects. Vista Irrigation District boundary includes the City of Vista as well as parts of the County of San Diego and the cities of San Marcos, Escondido and Oceanside.

### **SCOPE OF WORK:**

Travel time to and from the work zone or District offices shall not be paid.

All permit fees incurred by the Contractor for the project shall be reimbursed by the District.

If traffic control plans and permits are established, the Contractor shall be expected to respond to requests for services within five (5) business days.
