VISTA IRRIGATION DISTRICT AND THE VALLECITOS WATER DISTRICT PARTNER TO OFFER FREE HOMEOWNER LANDSCAPE WORKSHOPS IN NOVEMBER

Workshops on transforming lawns and garden design offered.

Vista, CA—

The Vista Irrigation District in partnership with the Vallecitos Water District is offering two free homeowner landscape workshops on November 7, 2026 at the Vista Irrigation District headquarters building located at 1391 Engineer Street in Vista.

The first session, Transforming Lawns, will be held 9:00AM - 10:30AM. Attendees will learn how to transform their yard into a beautiful, sustainable, and water-efficient landscape. This session covers everything from soil preparation and microclimates to site planning and irrigation strategies that support long-term conservation.

The second session, Garden Design Seminar, will be held 11:00AM – 12:30PM. This session will teach attendees to create a garden that's both beautiful and climate resilient. This design seminar will walk you through the process of planning a landscape that captures rainwater, conserves resources, and thrives with local conditions.

Interested persons may attend one or both sessions; registration is required. To register please call the Vista Irrigation District at (760) 597-3160.

Vista Irrigation District is a public agency governed by an elected five-member board. The district provides water service to roughly 135,000 people in the city of Vista, and portions of San Marcos, Escondido, Oceanside, and unincorporated areas of the county of San Diego.
